WEBSITE DESIGN PROPOSAL

Omaginfo LLC Corporate Website

Global Connectivity. Trusted Partnerships.

Page-by-page design and content plan · October 2026

Design reference: supplied sample website (placeholder content)

What this proposal covers

01 Foundations
Sample site analysis, what we keep and change, sitemap, visual direction

02 Global elements
Navigation bar, footer and the reusable call-to-action band

03 Home page
Hero, featured solutions, about preview, services overview

04 About Us page
Company introduction, story, mission & vision, leadership team

05 Services pages
Services overview, VoIP & Voice Termination, SMS Connectivity

06 Contact Us page
Enquiry form, contact details and form behaviour

07 Delivery
Responsive design, SEO, missing items for approval, next steps

How to read the page slides

Aa Plain text in mockups
Taken from the client's Website Content document

✱ Marked text
Proposed microcopy (button labels, short UI lines) — not in the document; needs approval

TBC chip
Information or asset missing — must be supplied or confirmed by the client

Dashed boxes
Image, illustration or photo to be produced or supplied

No sample placeholder content (names, figures, prices, addresses) is carried into the proposed site.

PROJECT OVERVIEW

Goal: a credible B2B home for Omaginfo LLC

Omaginfo LLC provides voice and messaging connectivity to operators, carriers and business partners across international markets. The new site should present its VoIP, A–Z voice termination and SMS routing services clearly and turn visitors into partnership enquiries.

Inputs analysed

- Sample website: index.html, style.css, script.js (rendered and screenshotted at desktop, tablet and mobile widths)
- Client document: Website_Content.docx (12 content items)

Objectives

- Communicate the services clearly to telecom buyers
- Build trust: company, founders, mission
- Drive enquiries to info@omaginfo.com

Proposed scope

- 6 pages: Home, About Us, Services, VoIP, SMS, Contact Us
- Plus Privacy Policy and Terms (content TBC)
- Responsive desktop, tablet and mobile

Audience (from document)

- Telecom operators and mobile network operators
- Carriers, service providers, SMS aggregators
- A2P / CPaaS platforms and businesses

0 1

Foundations

What the sample website does well, what changes for Omaginfo LLC, the sitemap and the visual direction.

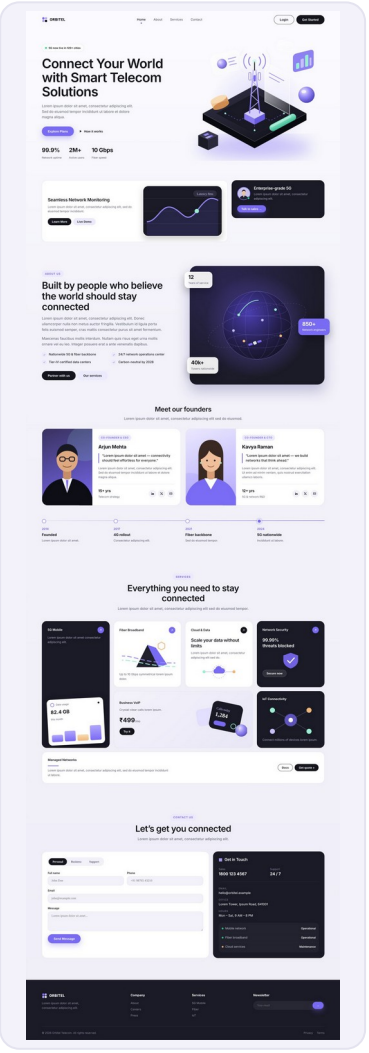

Layout and navigation of the sample site

Single long page with anchor navigation. Sticky header turns frosted-white on scroll; active link marked by a purple dot.

1. Logo mark + wordmark, top left
2. Centered links: Home, About, Services, Contact
3. Right: Login (outline) + Get Started (dark) pills
4. Status pill with live dot above headline
5. Large headline, left column (≈ 60px, semibold)
6. Primary purple CTA + secondary text link
7. Animated stat counters (3 figures)
8. Isometric 3D SVG illustration with mouse parallax
9. Bento highlight cards below the fold

Section structure, top to bottom

Navbar	Sticky; logo left, links centre, two pill buttons right; hamburger below 900px
Hero	2-column grid: text left (pill tag, H1, paragraph, 2 CTAs, 3 counters), isometric illustration right
Highlight strip	Bento 2:1 — light card with chart visual + dark compact card with avatar and CTA
About	Text + tick list + 2 buttons left; dark globe card with 3 floating stat chips right
Founders	Two horizontal cards: illustrated portrait, role pill, name, quote, bio, years, social icons
Timeline	4 milestones on a horizontal line (stacks vertically on mobile)
Services	Centered heading + 4-column bento grid of 7 cards (tall, wide, full-width banner)
Contact	Form card (enquiry-type toggle, 4 fields) + dark info card with phone, email, hours, status
Footer	Dark: logo + text, two link columns, newsletter field, copyright and legal links

Colours, typography and components

Colour tokens (from style.css)

Ink
#16161F · Text, dark buttons

Dark card
#1B1B28 · Cards, footer

Purple
#7B6CF6 · Primary accent

Lavender
#B3A8FF · Secondary accent

Purple soft
#ECEBFF · Pills, tints

Mint
#9DF0D4 · Highlights

Peach
#F2B77A · Warm accent

Page
#F3F2FA · Background

Typography

Plus Jakarta Sans

Google Font · weights 400–800 · headings 600 with tight letter-spacing · body 16px / 1.6 line height in muted grey #5F6075

Components & motion

Primary | Dark | Outline | Soft

EYEBROW LABEL

Light card

22px radius, 1px border, lift on hover

Dark card

Contrast block for key items

- Scroll-reveal fade-up on every block
- Animated number counters
- Floating / parallax SVG layers in hero
- Dashed 'data flow' line animations
- Respects reduced-motion settings

What we keep, adapt and remove

Keep

- Overall layout grid, spacing and rounded-card style
- Sticky navbar with mobile slide-in menu
- Bento card grids for services
- Founder card format
- Two-column contact section and form validation
- Scroll-reveal motion and reduced-motion support

Adapt

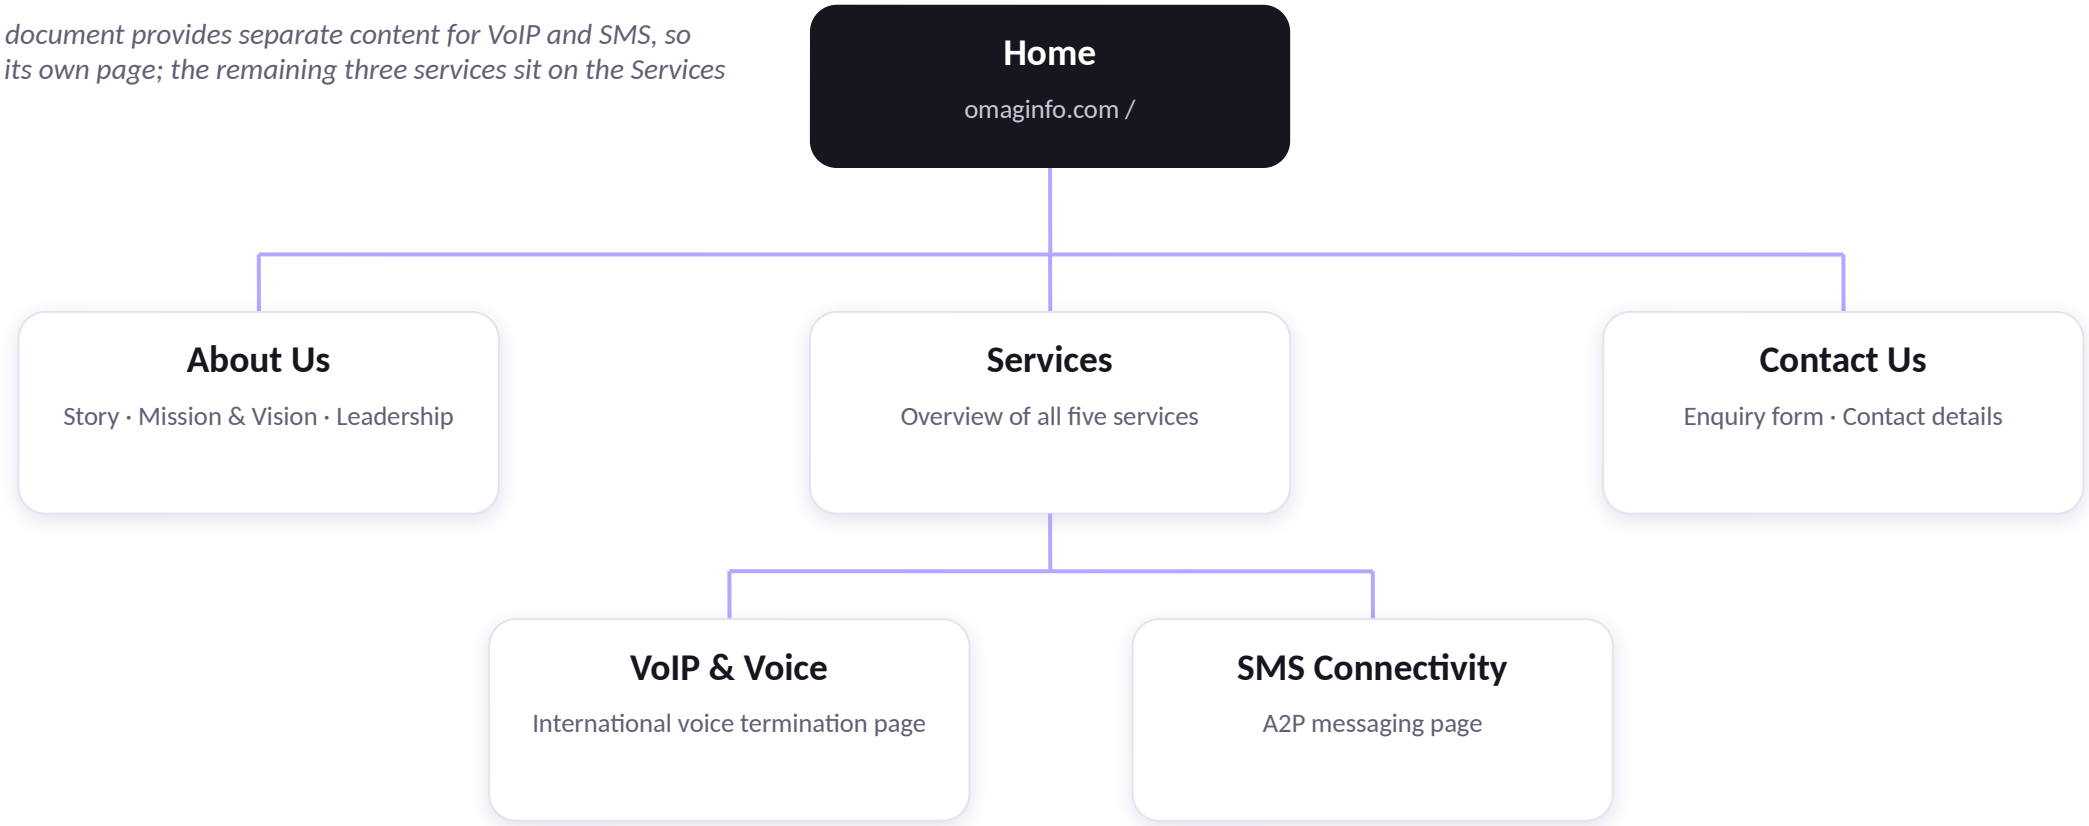

- Single page → 6-page site with a Services dropdown
- 5G tower art → globe / voice & SMS route illustrations
- Timeline → 'Our Story' text (no dates supplied)
- Stat chips → company values from the document
- Enquiry toggle → Voice / SMS / Partnership / General ✱
- Network status panel → LinkedIn + office details

Remove

- Orbitel name, logo and all lorem-ipsum text
- Sample services: 5G, fibre, cloud, security, IoT
- Sample figures: 99.9%, 2M+, 10 Gbps, 12 yrs, 40k+, 850+
- Sample price ₹499/mo and sample founders
- Sample phone, email, address and hours
- Login button and newsletter (unless confirmed)

Proposed sitemap

The client document provides separate content for VoIP and SMS, so each gets its own page; the remaining three services sit on the Services overview.

Footer / utility pages: Privacy Policy · Terms of Use (content TBC). **Main menu:** Home · About Us · Services ▾ (VoIP & Voice, SMS) · Contact Us + Partner with Us ✱

VISUAL DIRECTION

Same modern look, re-themed for global voice & messaging

Colour

Keep the sample's ink + purple palette with mint and peach accents. If Omaginfo LLC has brand colours, the purple accent is swapped for the brand colour across the whole site (one token).

Typography

Plus Jakarta Sans (free Google Font): semibold headings, regular body. Clear, technical and easy to read for an international B2B audience.

Illustration

Custom isometric SVG illustrations in the sample style: globe with route arcs (Home), phone handset + voice waves (VoIP), message bubbles crossing regions (SMS). No 5G/fibre imagery.

Photography

Professional headshots of both founders (to be supplied). Avoid generic stock people; illustrations carry the rest of the site.

Icons

One line-icon set (e.g. Lucide or Phosphor) in purple on soft-purple circles: voice, route, message, handshake, sliders, headset.

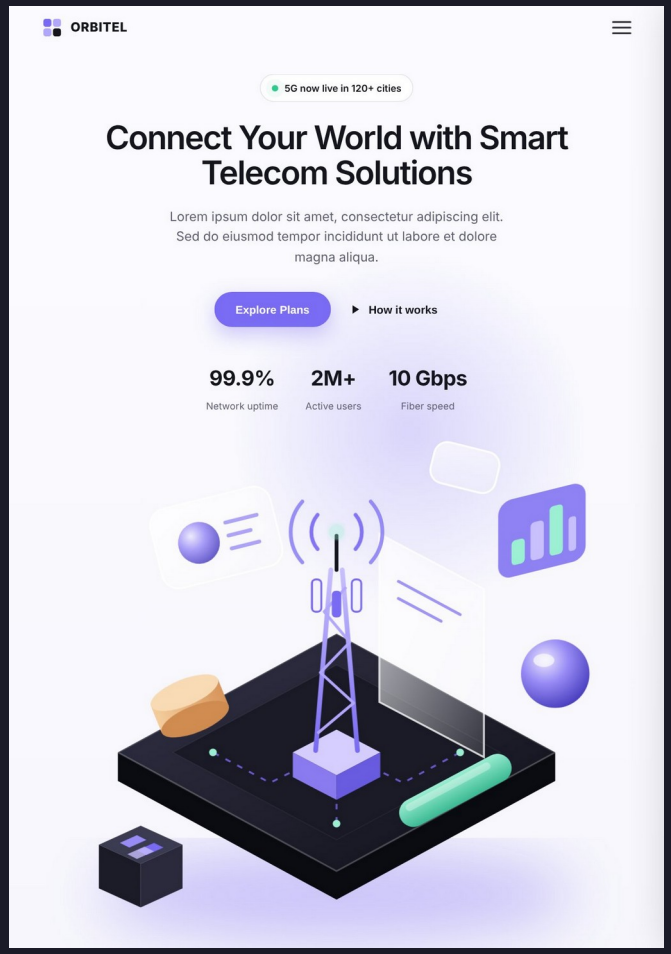

Data & claims

No metrics, coverage counts or quality claims are shown unless the client supplies and approves them.

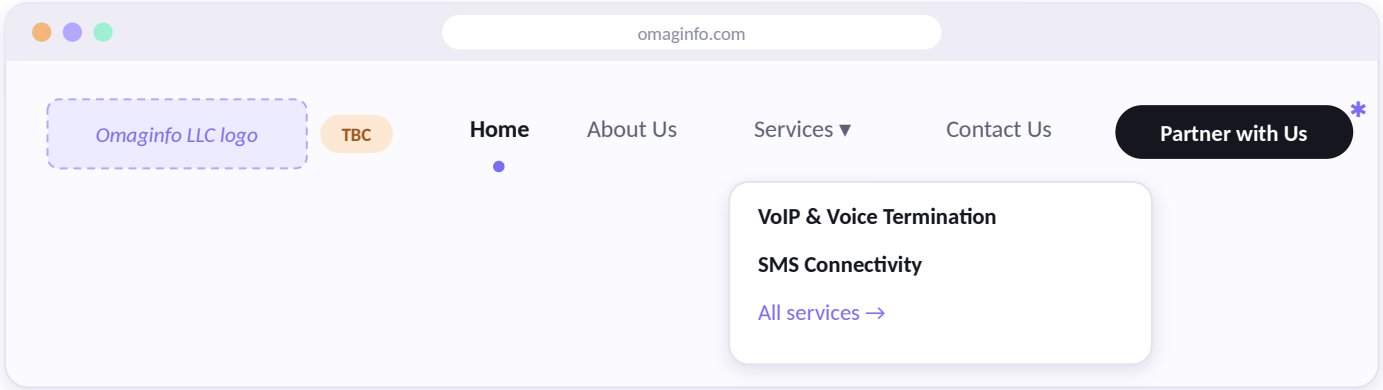

02

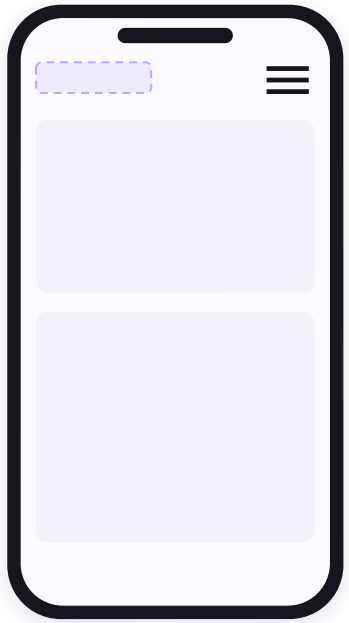

Global elements

Components shared by every page: navigation bar, footer and the call-to-action band.

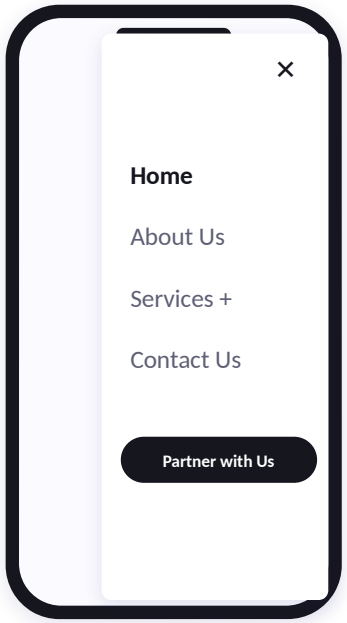

Navigation bar

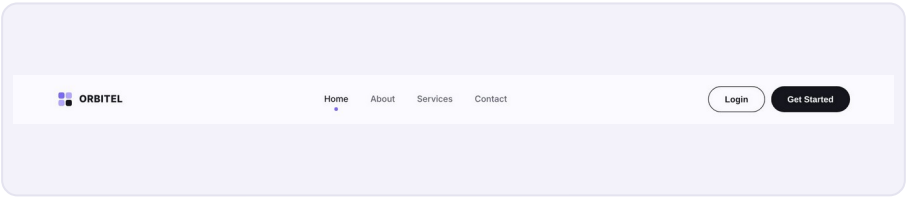

Mobile · closed

Mobile · menu open

Desktop (≥ 900px) shown above

SAMPLE REFERENCE

Layout

- Logo left, 4 links centred, one CTA pill right
- Sticky; frosted white background + shadow after 20px scroll
- Below 900px: hamburger opens a 280px slide-in panel

Content

- Links: Home · About Us · Services ▾ · Contact Us
- Services dropdown: VoIP & Voice Termination, SMS Connectivity
- CTA: 'Partner with Us' ✱ (sample's Login removed)

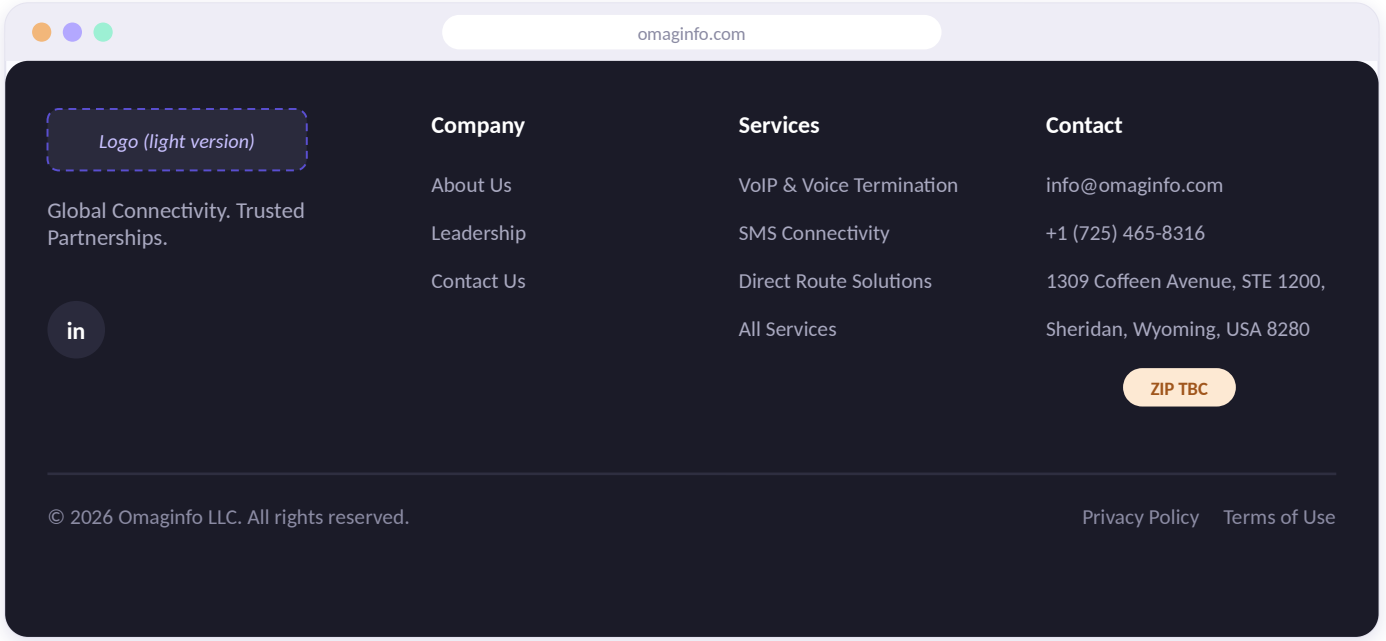

Visuals

- Omaginfo LLC logo (SVG) — not supplied, TBC
- Purple dot under the active page link

Functionality

- Links go to their pages; CTA → Contact Us
- Dropdown opens on hover/focus (desktop), expands inline on mobile
- Keyboard accessible; menu closes after a tap

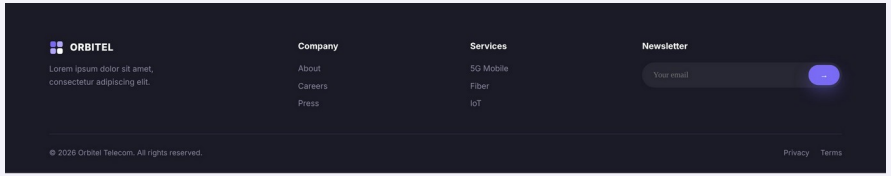

Footer

Year updates automatically. Newsletter column from the sample is replaced by the Contact column (no newsletter in the brief).

Mobile: columns stack to 2 (tablet) and 1 (phone); contact items become tap-to-email / tap-to-call links.

SAMPLE REFERENCE

Layout

- Full-width dark band; 4 columns (brand, Company, Services, Contact)
- Bottom bar: copyright left, legal links right

Content

- Tagline: Global Connectivity. Trusted Partnerships.
- Email, phone and address exactly as supplied
- LinkedIn: linkedin.com/company/omaginfo-llc

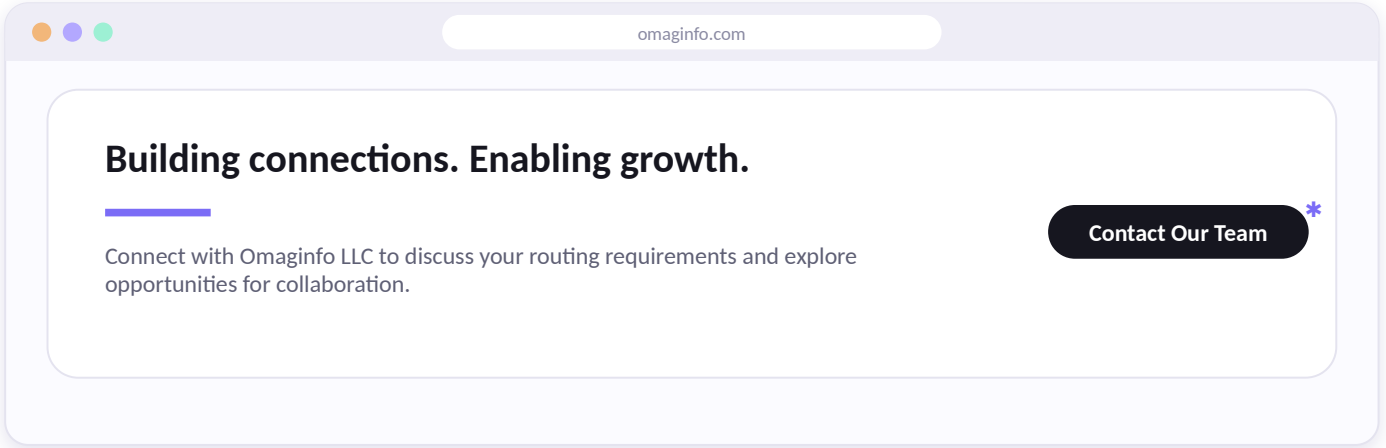

Visuals

- Light/white version of logo (TBC)
- LinkedIn icon in a dark circle, hover turns white

Functionality

- mailto: and tel: links; LinkedIn opens in new tab
- Privacy / Terms pages need client-approved text

Closing call-to-action band, reused on each page

Copy per page (headings and text from the client document)

Page	Heading	Button ✱ → Contact Us
Home / About / Services	Building connections. Enabling growth.	Contact Our Team
VoIP	Partner with Omaginfo LLC	Discuss Voice Routes
SMS	Build Your Global Messaging Network with Omaginfo LLC	Discuss SMS Routes

Layout

- Full-width light card (sample's 'Managed Networks' banner)
- Heading + short purple line + text left; button right
- Stacks with button below text on mobile

Visuals

- White card, 1px border, 22px radius on the page tint
- Optional faint globe line-art in the right corner

Functionality

- Button opens Contact Us with the enquiry type pre-selected (Voice on VoIP page, SMS on SMS page)
- Implemented via a URL parameter, e.g. /contact?type=sms

Notes

- Button labels are proposed (✱); doc says 'Connect with Omaginfo LLC' / 'Contact our team'

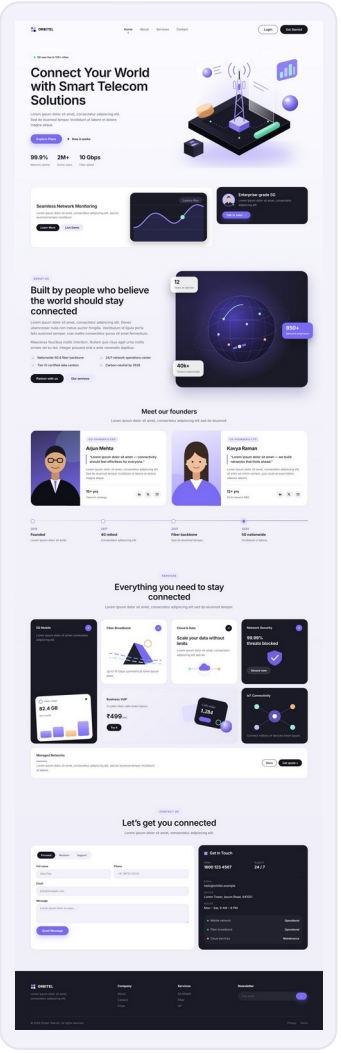

0 3

Home page

Introduces Omaginfo LLC, its five services and routes visitors to the VoIP, SMS and Contact pages.

Home page at a glance

Sample

SAMPLE SECTION	PROPOSED HOME SECTION
Navbar	**Navigation bar** Global component
Hero	**Hero** Connecting Businesses Through Global Voice & Messaging
Highlight strip	**Featured solutions** Two cards → VoIP page and SMS page
About + founders + timeline	**About preview** About Omaginfo LLC + company values (founders move to About page)

Home About Us Services ▾ Contact Us

Partner with Us *

Global Connectivity. Trusted Partnerships.

Connecting Businesses Through Global Voice & Messaging

Omaginfo LLC delivers international voice termination, VoIP, and SMS connectivity solutions designed to help telecom operators and business partners expand their reach through reliable connections and competitive commercial offerings.

Building connections. Enabling growth.

Explore Our Services * Partner with Us *

Optional stats row (e.g. destinations, partners) — only with client-verified figures TBC

Custom isometric illustration: globe on platform with voice & SMS route arcs, floating message and call cards

SAMPLE REFERENCE

Layout

- 2-column grid (text 1 : art 1.1), vertically centred
- Text left; illustration right with soft purple glow
- Mobile: single column, centred text, art below

Content

- Tag: Global Connectivity. Trusted Partnerships.
- H1, paragraph and closing line verbatim from document item 3
- Buttons ✱: 'Explore Our Services', 'Partner with Us'

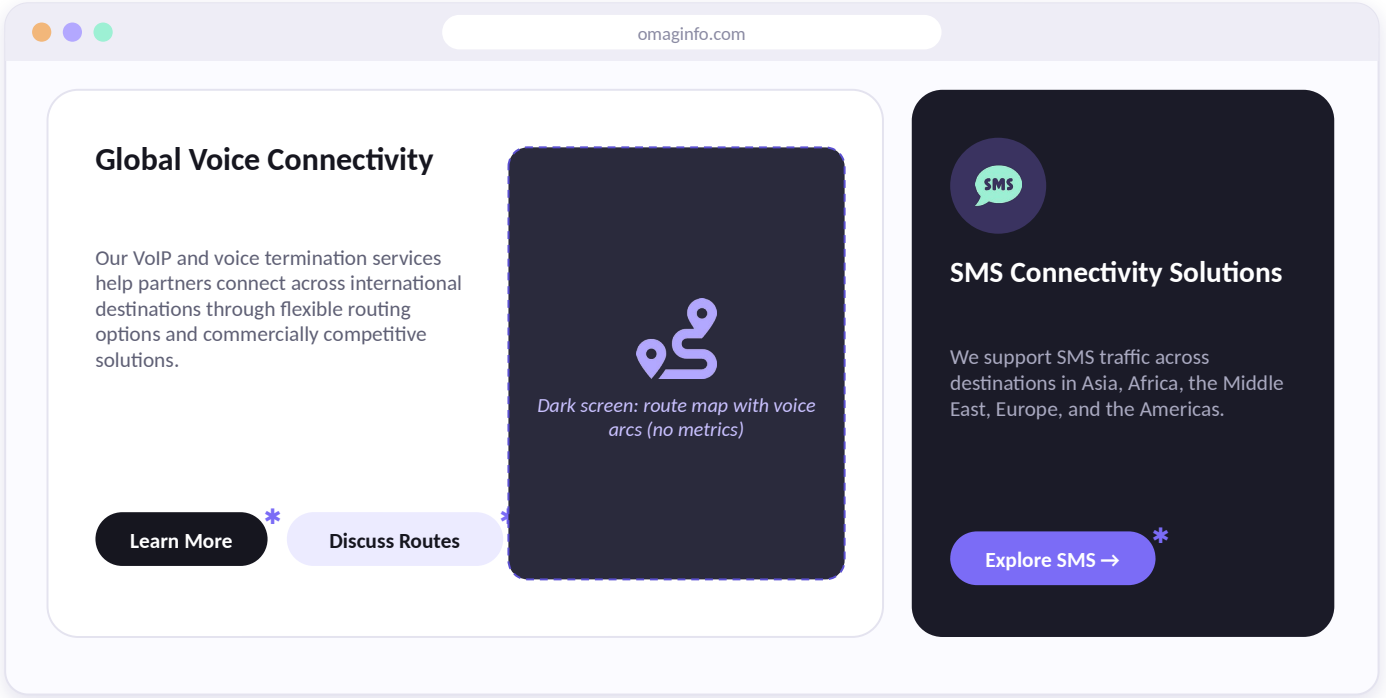

Visuals

- New isometric SVG in sample style (globe instead of 5G tower)
- Pill tag with pulsing green dot

Functionality

- Explore Our Services → Services page; Partner with Us → Contact Us
- Mouse parallax on illustration layers (desktop only)
- Sample counters hidden unless real figures are supplied

Featured solutions strip

Text: first sentences of the document's VoIP page (item 6) and SMS page (item 7).

Why this section: the client has two in-depth service pages. Surfacing them directly under the hero gives operators and aggregators a one-click path to the page relevant to them.

SAMPLE REFERENCE

Layout

- Bento 2:1 — wide light card + compact dark card
- Wide card splits text left / visual right
- Stacks to one column below 900px

Visuals

- Dark 'screen' illustration of voice routes (replaces latency chart)
- SMS icon in a soft circle (replaces avatar)

Functionality

- Learn More → VoIP page; Discuss Routes → Contact (Voice pre-selected)
- Explore SMS → SMS page
- Card lifts 5px on hover; scroll-reveal fade-in

Notes

- Sample 'Latency 8ms', '5G' and avatar removed — no figures supplied

Reliability

Globe with connection arcs and orbiting satellite (sample visual, recoloured)

Competitive commercial offerings

Mutual trust

SAMPLE REFERENCE

Layout

- 2 columns: text left, dark globe card right
- Tick list in 2 columns; two buttons below
- Mobile: text first, visual below

Content

- Heading + paragraph: document item 1, first paragraph
- Ticks: the four services named in that paragraph
- Chips: values named in paragraph 2 (reliability, competitive commercial offerings, mutual trust)

Visuals

- Sample globe & satellite SVG kept, arcs recoloured
- Floating chips carry words, not invented numbers

Functionality

- Learn More About Us ✱ → About Us; Our Services → Services
- Founders and timeline move to the About page

Our Services (bento grid)

omaginfo.com

SERVICES

Our Services

VoIP & International Voice Termination

Voice connectivity and A–Z termination solutions for international telecom operators, carriers, and service providers.

Floating card: voice route illustration

SMS Routing & Connectivity

SMS routing and traffic solutions designed to support messaging requirements across available international destinations.

SMS

Direct Route Solutions

Access to available direct fixed and mobile routes to support routing efficiency and connectivity requirements.

Global Telecom Partnerships

Flexible commercial arrangements and collaboration opportunities for operators and carriers seeking to expand their international reach.

Tailored Connectivity Solutions

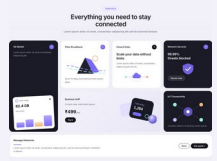

Business-focused voice and messaging options developed around partner requirements, traffic needs, and commercial objectives.

Discuss Requirements *

Who we work with *

Operators · Carriers · Service providers · Business partners

SAMPLE REFERENCE

Layout

- Centred heading, 4-column bento: 1 tall, 4 standard, 1 wide card
- Tablet: 2 columns; phone: 1 column

Content

- Five titles + descriptions verbatim from document item 4
- 6th card ✱ 'Who we work with' uses audiences named in item 1
- Sample prices (₹499/mo) and figures not used

Visuals

- Line icons per service; dark/light cards alternate
- Tall card keeps the tilted floating panel, now a voice-route visual

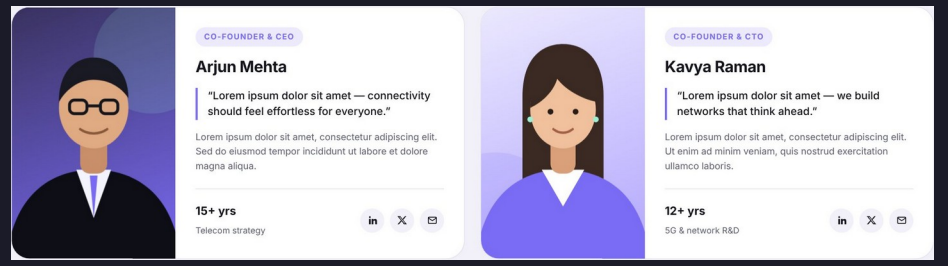

Functionality

- VoIP card → VoIP page; SMS card → SMS page
- Direct Routes → Services page; Partnerships & Tailored → Contact
- Whole card clickable; ↗ icon signals link

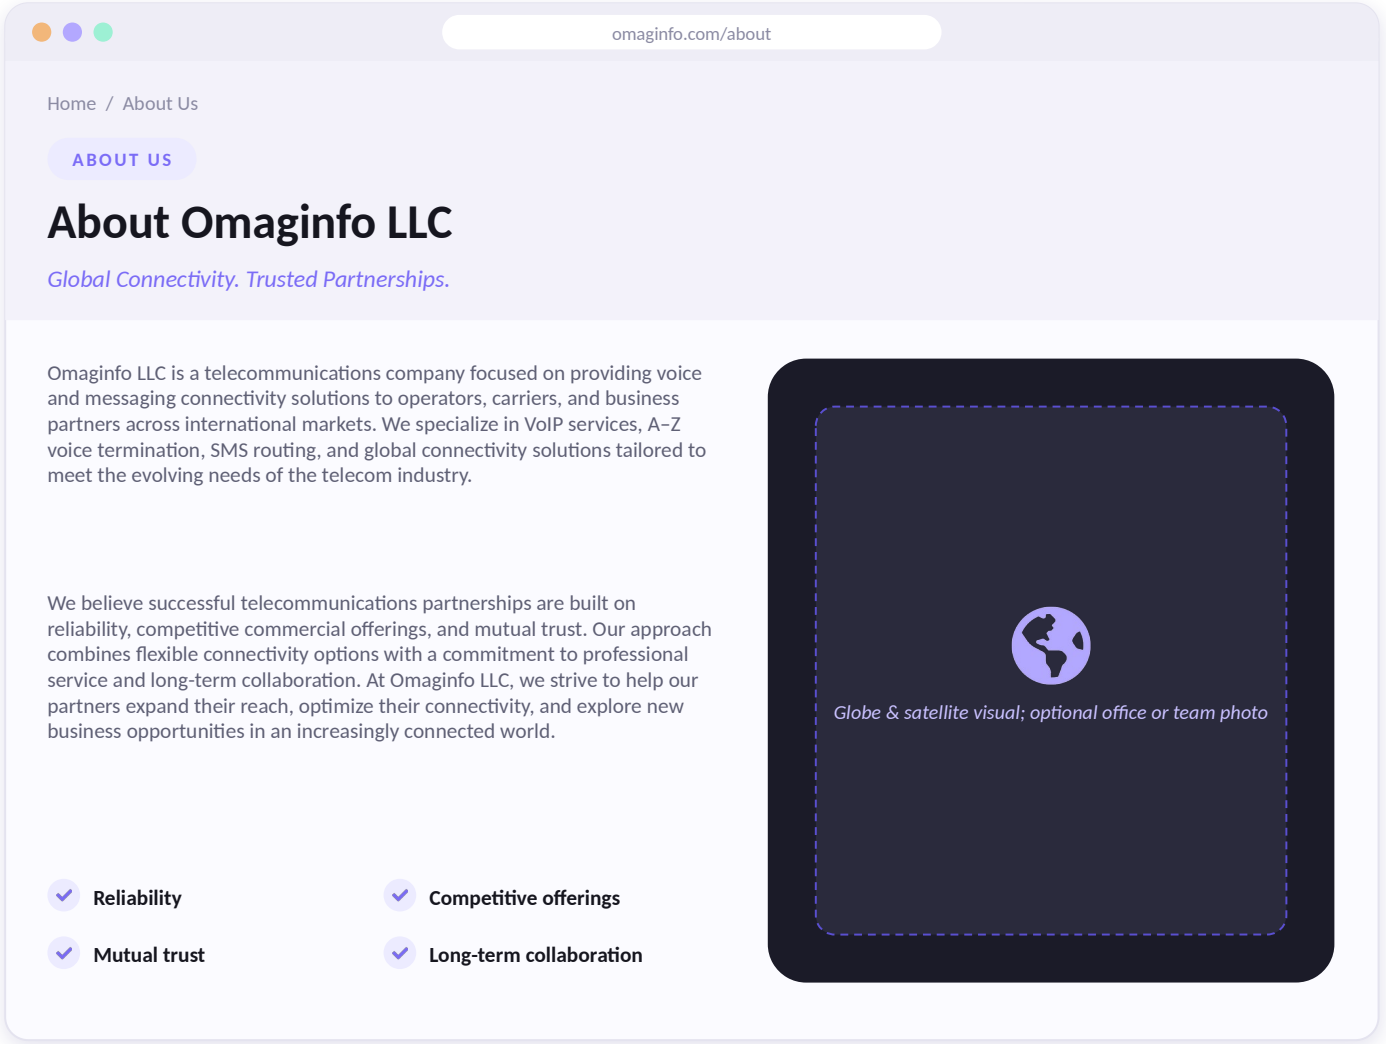

04

About Us page

Company introduction, story, mission & vision, and the leadership team — all from the client document.

Page header and company introduction

Layout

- Page header band: breadcrumb, eyebrow, H1, tagline
- Below: 2 columns — text + value ticks left, visual card right
- Mobile: single column, visual after text

Content

- H1 'About Omaginfo LLC' and both paragraphs verbatim (document item 1)
- Ticks condensed from paragraph 2 wording
- Tagline from document item 2

Visuals

- Soft page-tint header band (no photo needed)
- Dark globe card reused from Home for consistency
- Stat chips omitted — no years, coverage or staff figures supplied (TBC)

Functionality

- Breadcrumb 'Home' links back
- Scroll-reveal on blocks; no forms on this section

Our Story, Mission and Vision

omaginfo.com/about

Our Story

Omaginfo LLC was established with the aim of creating valuable connections within the global telecommunications industry. We recognized the importance of dependable routing, competitive pricing, and strong business relationships in helping telecom operators grow. With this focus, we work to develop partnerships and provide voice and messaging solutions that address the practical needs of our customers.

As we continue to grow, our focus remains on expanding our connectivity opportunities, strengthening partner relationships, and creating sustainable value across the telecommunications ecosystem.

Optional milestone timeline

Shown only if founding year and milestones are supplied

Dates TBC

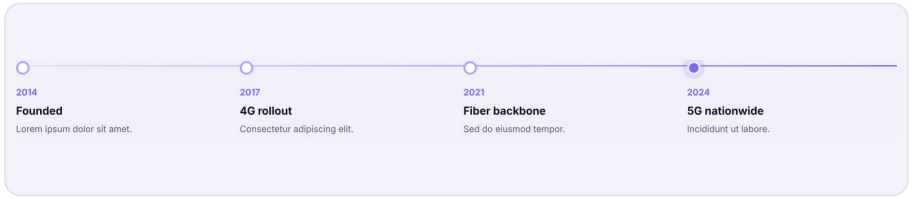

Our Mission

To deliver dependable and cost-effective voice and messaging connectivity while building transparent, mutually beneficial relationships with telecom operators and business partners worldwide.

Our Vision

To become a trusted international telecommunications partner recognized for connectivity, commercial flexibility, service reliability, and lasting business relationships.

SAMPLE REFERENCE

Layout

- Story: text left, optional timeline card right
- Mission & Vision: two equal cards side by side
- Mobile: everything stacks; cards full width

Content

- 'Our Story' 2 paragraphs, Mission and Vision verbatim from item 1
- Sample timeline (2014–2024, 4G/5G) removed

Visuals

- Mission: dark card, mint target icon
- Vision: purple card, white eye icon

Notes

- Founding year and any milestones needed to show a timeline (TBC); otherwise the story stands alone

Leadership team

Experience

Years TBC

in @

SAMPLE REFERENCE

Layout

- Two founder cards side by side (sample format)
- Photo, role pill, name, bio, footer row with experience + social
- Below 1080px: cards stack; below 600px photo moves on top

Content

- Names, titles and full 3-paragraph bios verbatim (item 5)
- First paragraph visible; 'Read full bio' ✱ expands the rest
- Sample quotes removed — add only if founders supply one

Visuals

- Professional headshots on purple gradient backgrounds (TBC)

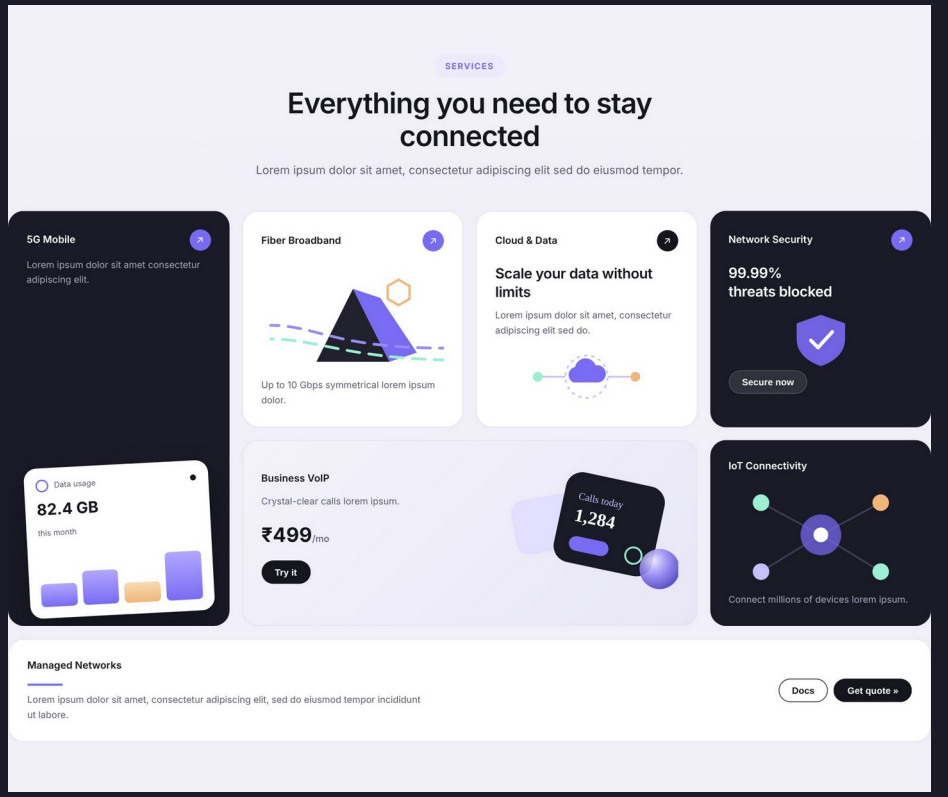

Functionality

- Expand/collapse bio; LinkedIn icon opens profile in new tab
- Personal LinkedIn URLs / emails and years of experience TBC

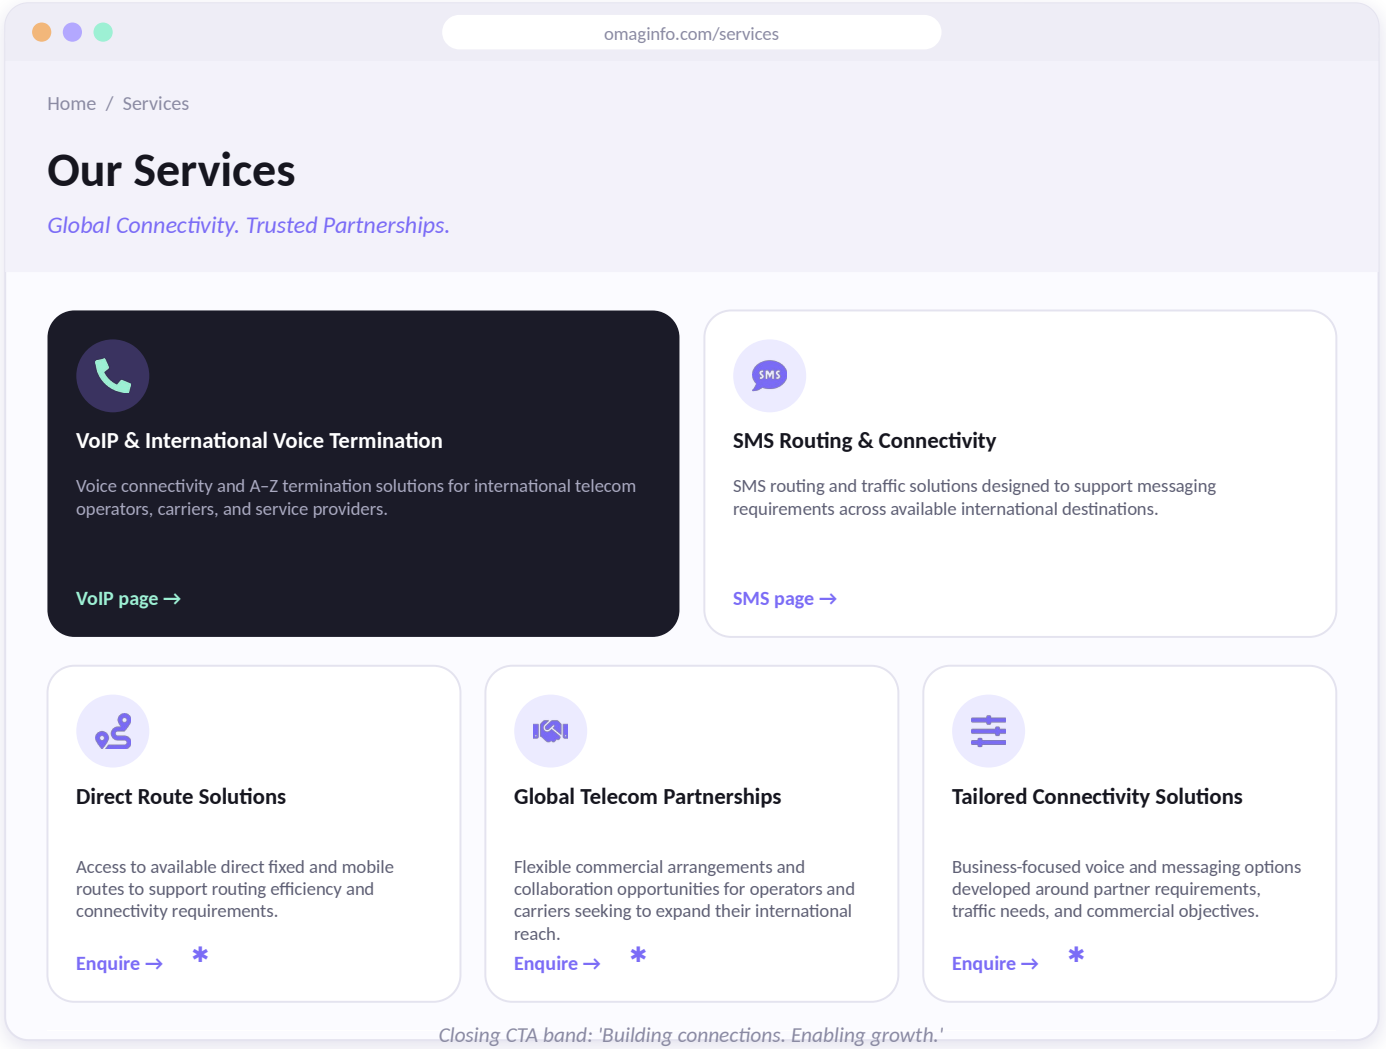

05

Services pages

A services overview plus dedicated pages for VoIP & Voice Termination and SMS Connectivity.

Services overview page

Layout

- Header band (breadcrumb, H1 'Our Services', tagline)
- Row 1: two large cards for the services with their own pages
- Row 2: three cards for the remaining services
- Global CTA band, then footer

Content

- All five titles and descriptions verbatim (item 4)
- Link labels: 'VoIP page →', 'SMS page →', 'Enquire →' ✱

Visuals

- Icons in soft circles; VoIP card dark for emphasis

Functionality

- VoIP / SMS cards open their pages
- Other three open Contact Us with 'General / Partnership' pre-selected

Notes

- Client to confirm: should Direct Routes, Partnerships or Tailored Solutions get their own pages later?

VoIP hero and introduction

Home / Services / VoIP

VOIP SERVICES *

Global Voice Connectivity with Omaginfo LLC

At Omaginfo LLC, we provide international voice connectivity solutions designed to meet the needs of telecom operators, carriers, and service providers. Our VoIP and voice termination services help partners connect across international destinations through flexible routing options and commercially competitive solutions.

Discuss Voice Routes * Our VoIP Services ↓

Isometric phone handset with voice waves travelling along routes across a globe

We understand that successful voice traffic management depends on route availability, call quality, efficient routing, and responsive technical coordination. Our focus is to help partners meet their connectivity requirements while supporting their commercial objectives in an evolving telecommunications market.

Whether you are expanding your international voice coverage or looking for new routing partnerships, Omaginfo LLC offers a business-focused approach to global voice connectivity.

SAMPLE REFERENCE

Layout

- Breadcrumb + hero in the Home hero format (text left, art right)
- Intro card below: two text columns
- Mobile: single column, art after buttons

Content

- H1 and three intro paragraphs verbatim (item 6)
- Eyebrow 'VoIP Services' ✱
- Buttons ✱: 'Discuss Voice Routes', 'Our VoIP Services ↓'

Visuals

- New isometric SVG: handset, voice waves, route arcs
- Same purple glow background as Home hero

Functionality

- Discuss Voice Routes → Contact (Voice pre-selected)
- Our VoIP Services ↓ smooth-scrolls to the services grid

Our VoIP Services

omaginfo.com/services/voip

SERVICES

Our VoIP Services

International Voice Termination

Access voice termination solutions across A–Z destinations, with routing options based on destination availability, traffic requirements, and commercial agreements.

Quality-Focused Routing

We prioritize route selection based on available quality information, agreed technical parameters, and partner requirements to support consistent voice connectivity.

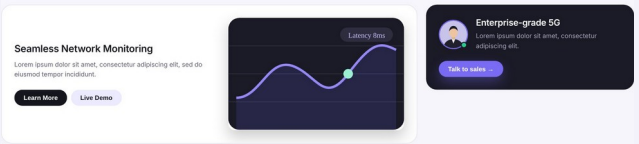

Flexible Connectivity Options

Our solutions are designed to accommodate different traffic profiles and interconnection needs, helping operators establish suitable routing arrangements for their businesses.

Partner Support

Our team works with partners to coordinate service requirements, address technical queries, and facilitate communication regarding routing and connectivity matters.

SAMPLE REFERENCE

Layout

- Centred section heading
- 2 × 2 card grid, alternating dark and light (checkerboard)
- Tablet: 2 columns; phone: 1 column

Content

- Heading and four service titles + descriptions verbatim (item 6)

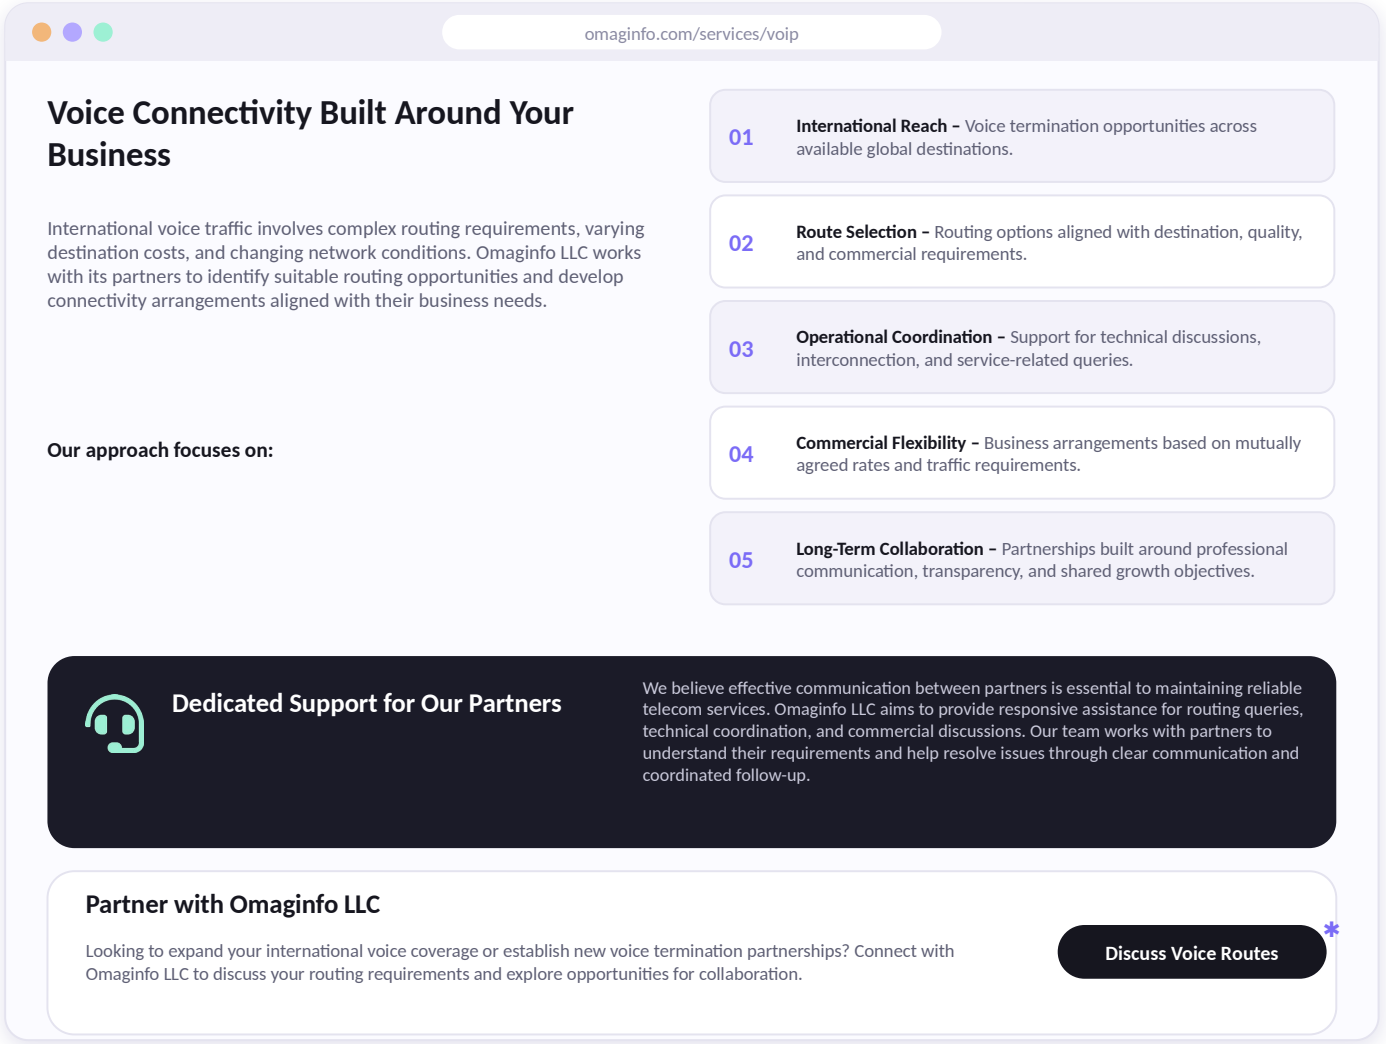

Visuals

- One line icon per card in a circle (globe, route, network, headset)
- Cards lift on hover; no stock photos needed

Functionality

- Informational cards (no links), anchor target for the hero's scroll button
- Scroll-reveal with staggered delay

Approach, partner support and closing CTA

Layout

- Approach: intro text left, 5 numbered rows right
- Support: full-width dark band, heading left, text right
- CTA band (global component) closes the page
- Mobile: all blocks stack; numbered rows stay full width

Content

- All headings, paragraphs and five approach points verbatim (item 6)
- Closing line 'Global Connectivity. Trusted Partnerships.' sits in the footer

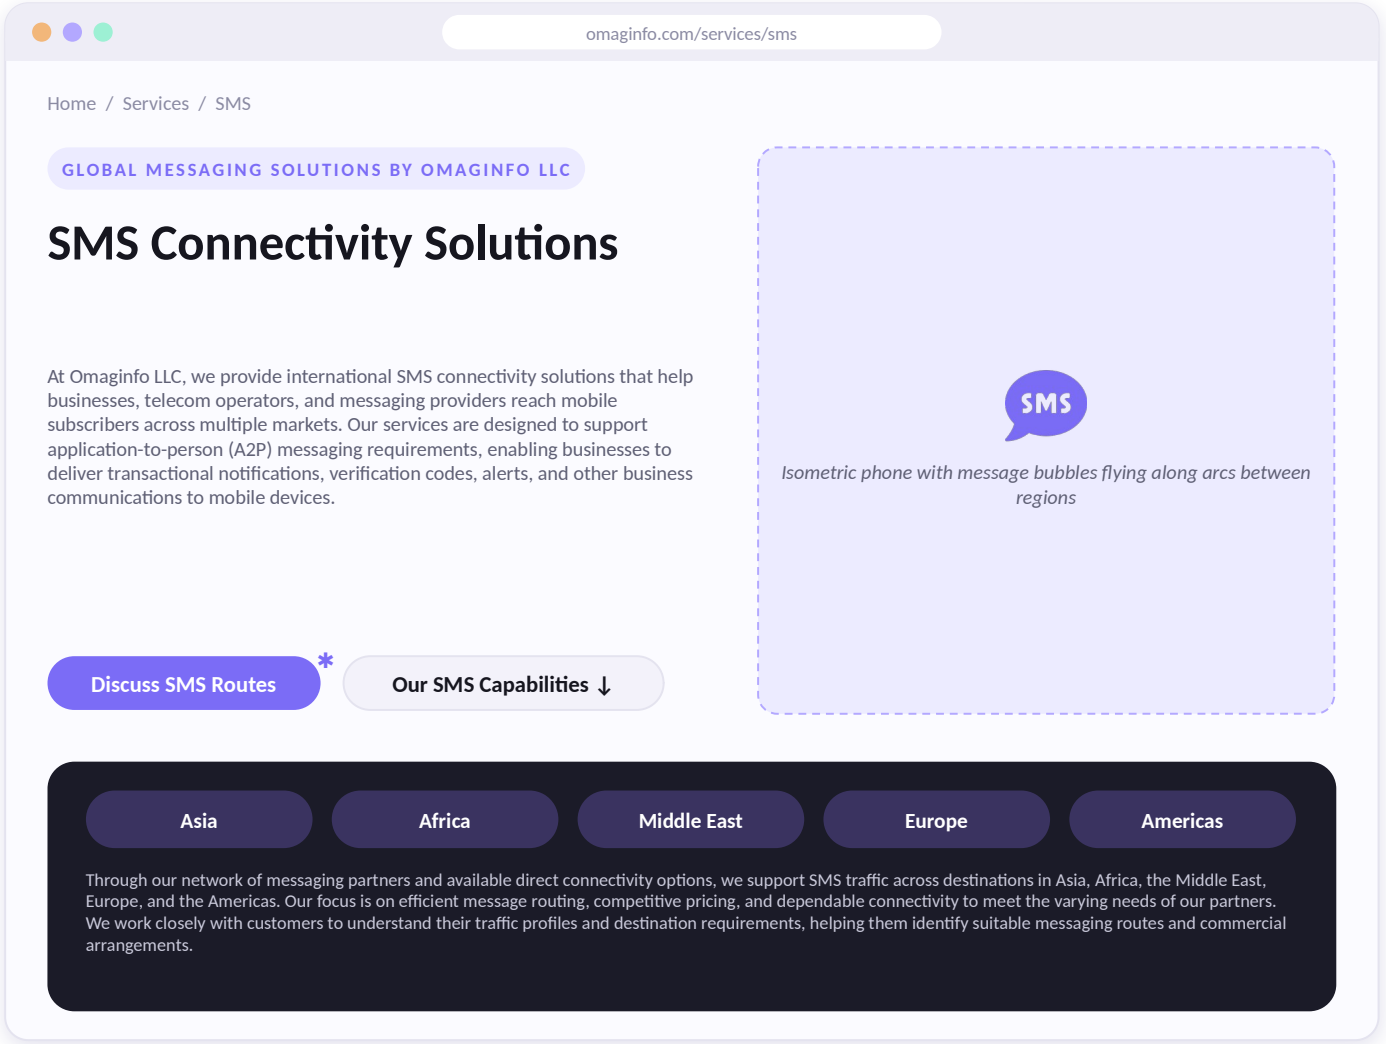

Visuals

- Numbered rows instead of plain bullets
- Headset icon in mint on the dark support band

Functionality

- Discuss Voice Routes ✱ → Contact Us with 'Voice' pre-selected

SMS hero and coverage

Layout

- Hero (text left, art right) as on the VoIP page
- Dark coverage band with five region chips + paragraphs
- Mobile: chips wrap to 2–3 per row

Content

- H1, sub-heading (as eyebrow) and 3 paragraphs verbatim (item 7)
- Region chips list only the regions named in the document
- Buttons ✱: 'Discuss SMS Routes', 'Our SMS Capabilities ↓'

Visuals

- Isometric SVG: phone + message bubbles
- Optional dotted world map behind the chips, regions highlighted

Functionality

- Discuss SMS Routes → Contact (SMS pre-selected)
- Scroll button jumps to capabilities

Our SMS Capabilities

omaginfo.com/services/sms

Our SMS Capabilities

International A2P Messaging

We support application-to-person messaging for business communications, including one-time passwords (OTPs), transaction notifications, service alerts, and customer updates, subject to route and destination availability.

Direct SMS Connectivity

Where available, our direct connectivity options help partners access mobile network operators and reduce unnecessary intermediary routing, supporting efficient message delivery.

Multi-Region Coverage

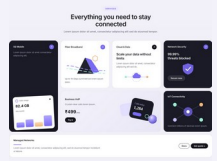

Our SMS solutions support international messaging requirements across a broad range of destinations, helping aggregators, messaging platforms, and telecom operators extend their reach into new markets.

Flexible Routing Solutions

We work with partners to identify suitable routes based on destination, traffic type, delivery requirements, and agreed commercial terms.

A2P use cases: OTPs · Transaction notifications · Service alerts · Customer updates

SAMPLE REFERENCE

Layout

- Centred heading; 4 equal cards in a row
- Use-case chip row under the cards
- Tablet: 2 × 2; phone: 1 column

Content

- Four capability titles + text verbatim (item 7)
- Chips repeat the A2P examples named in the document

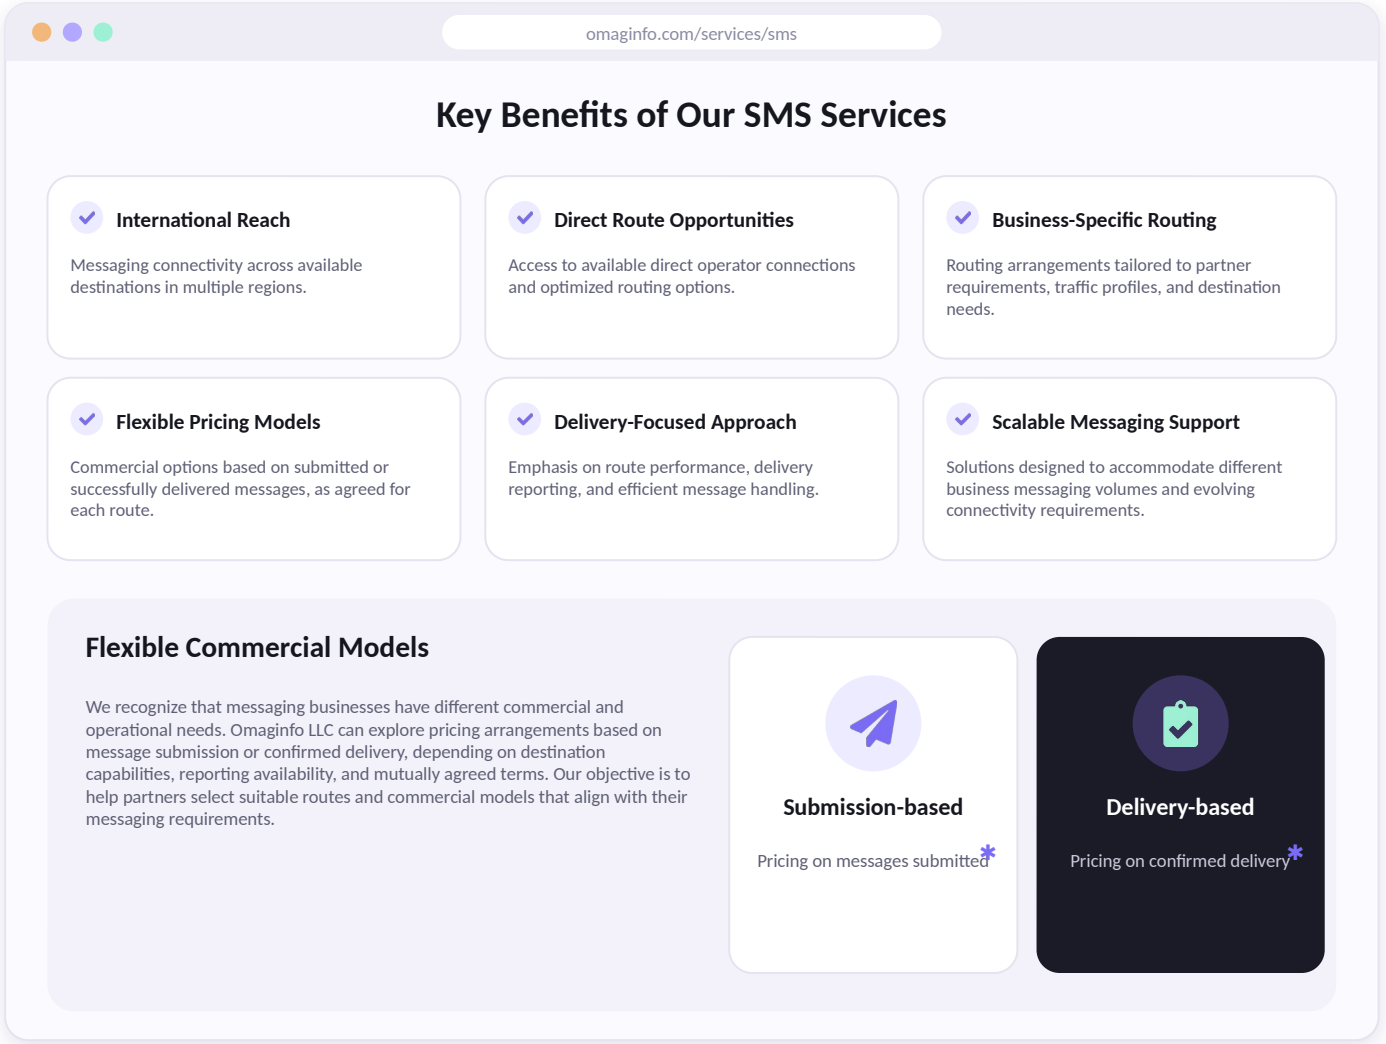

Visuals

- Icons: key (OTP), exchange, globe, route
- First card dark to lead the row

Functionality

- Informational; anchor target for hero scroll button
- Staggered scroll-reveal

Key benefits and flexible commercial models

Layout

- Benefits: 3 × 2 grid of tick cards
- Commercial models: text left, two option cards right
- Mobile: 1 column; the two option cards sit side by side

Content

- Six benefits and the commercial-models text verbatim (item 7)
- Option card captions ✱ summarise the document's two pricing bases
- No rates or prices shown (agreed per route)

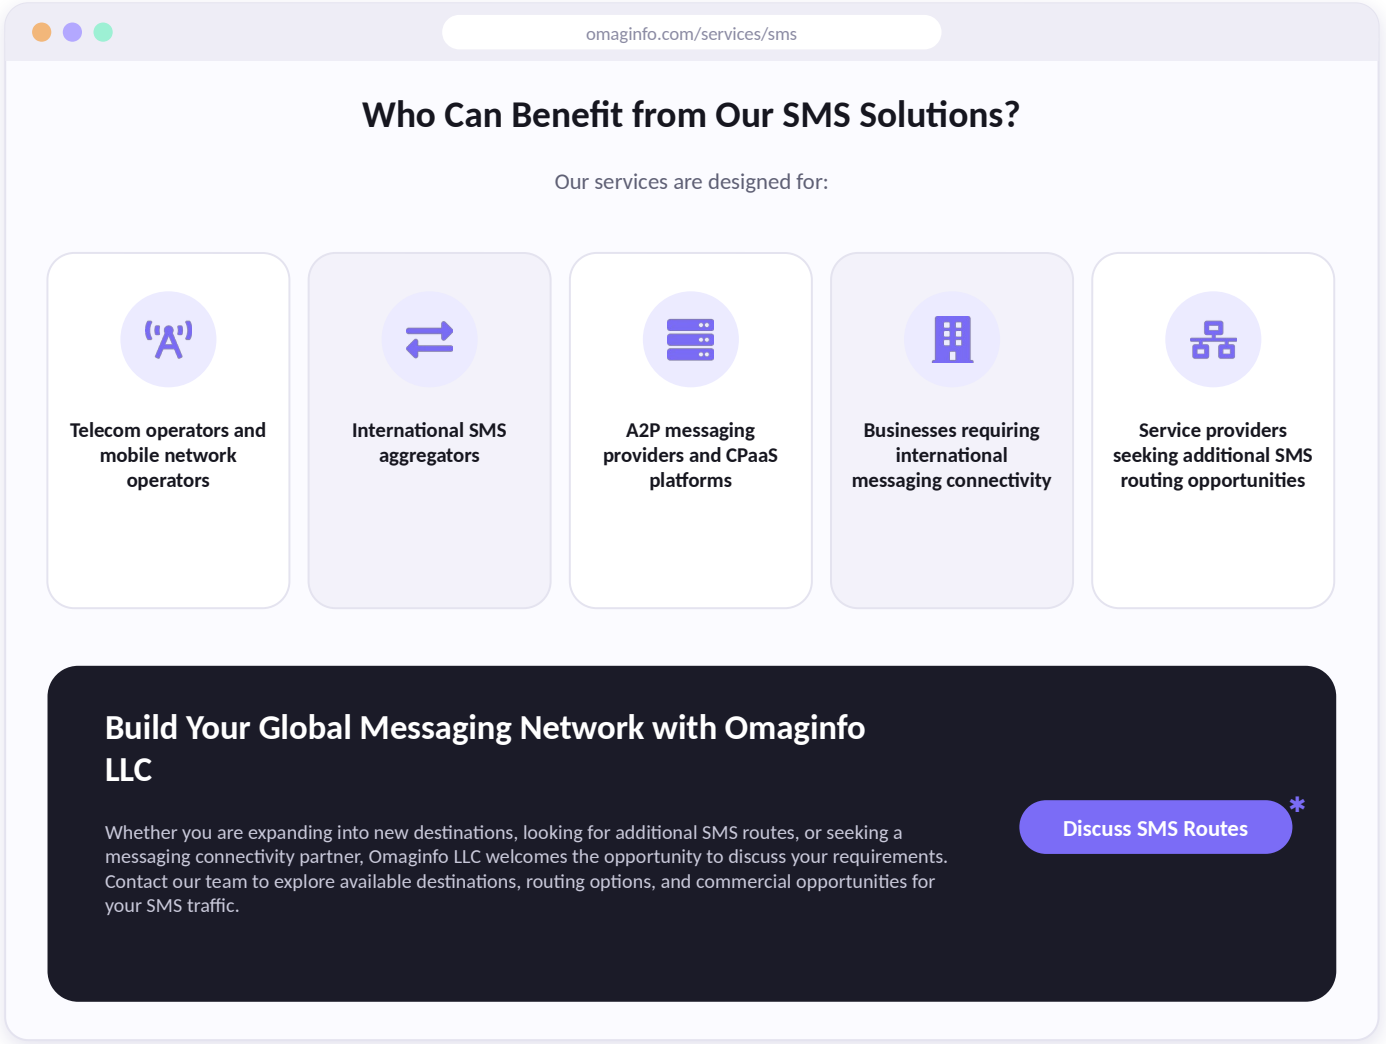

Visuals

- Tick icons; paper-plane vs clipboard-check icons for the two models

Functionality

- Static content; optional 'Ask about pricing' link → Contact (SMS)

Who can benefit and closing CTA

Layout

- Centred heading + intro line
- Five audience cards in one row
- Dark CTA band (dark variant of the global band)
- Tablet: 3 + 2 cards; phone: 1 per row

Content

- Heading, intro and five audiences verbatim (item 7)
- CTA heading and paragraph verbatim; button ✱

Visuals

- Icons: tower, exchange, server, building, network
- Dark band with optional faint message-bubble pattern

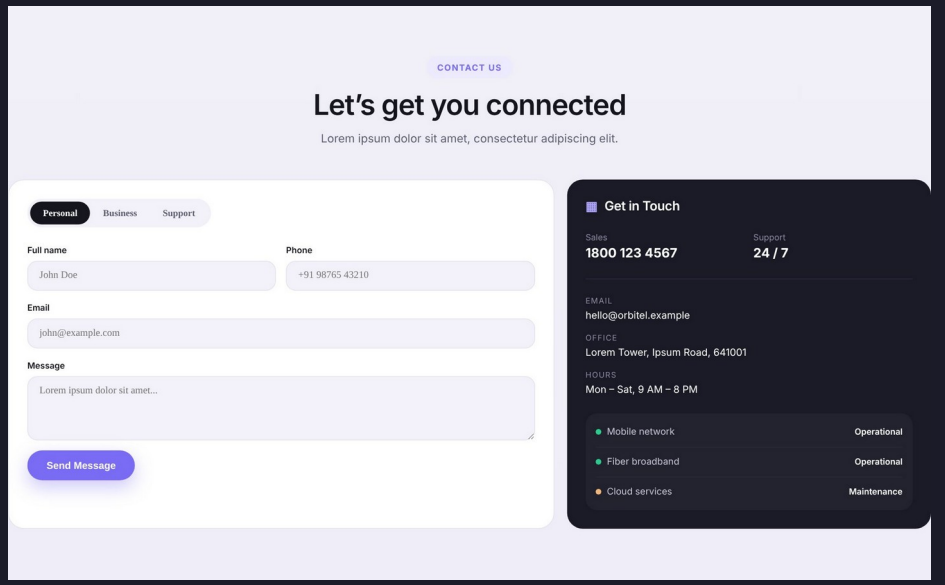

Functionality

- Discuss SMS Routes → Contact Us with 'SMS' pre-selected

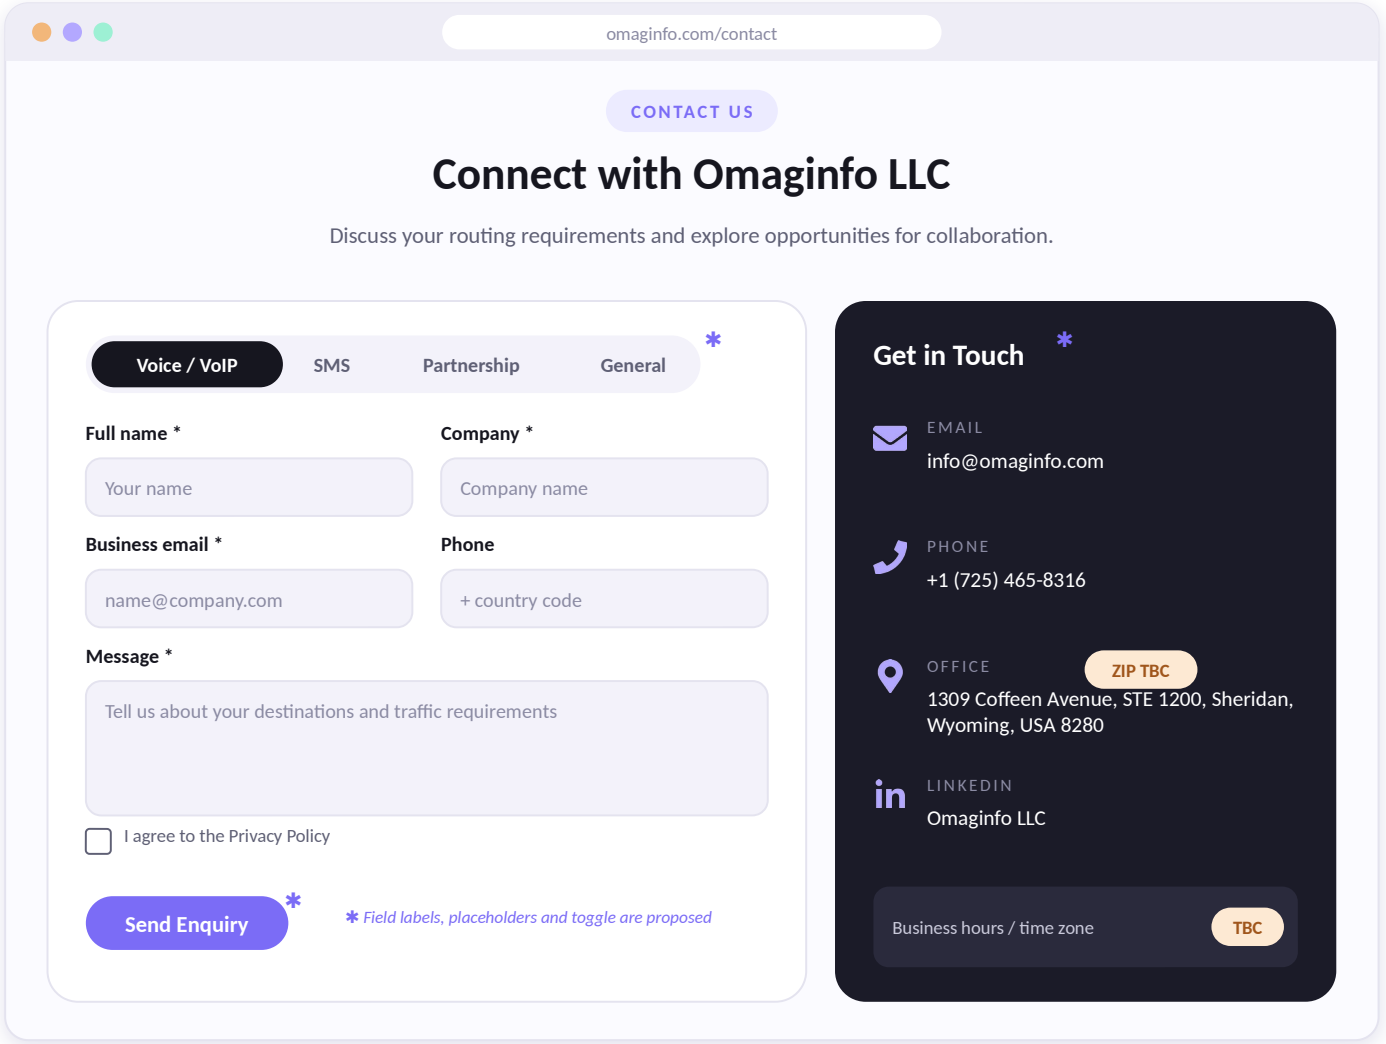

06

Contact Us page

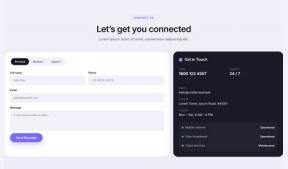

One clear place to start a partnership conversation, with all enquiries sent to info@omaginfo.com.

Enquiry form and contact details

SAMPLE REFERENCE

Layout

- Centred heading; form card (1.5) + dark info card (1)
- Mobile: form first, info card below; fields one per row

Content

- Heading adapted from document text ('Connect with Omaginfo LLC…')
- Email, phone, address and LinkedIn exactly as supplied (items 8–11)
- Sample status panel, hours and 1800 number removed

Visuals

- Line icons for each contact item
- Optional map embed of the office address (client to approve)

Functionality

- Email → mailto:, phone → tel:, LinkedIn → company page
- Form behaviour detailed on the next slide

How the enquiry form works

1

Visitor opens form

Directly, or from a page CTA with the enquiry type pre-selected (?type=voice / sms)

2

Validation

Required fields checked in the browser; invalid fields turn red with a short message

3

Spam protection

Hidden honeypot field + reCAPTCHA / Turnstile (client to choose)

4

Delivery

Enquiry emailed to info@omaginfo.com with the type in the subject line

5

Confirmation

On-page success message ✱; optional auto-reply to the visitor

Field	Type	Required	Rule
Enquiry type	Toggle	Yes	Voice / VoIP · SMS · Partnership · General ✱
Full name	Text	Yes	At least 2 characters
Company	Text	Yes	Added for B2B context ✱
Business email	Email	Yes	Valid email format
Phone	Tel	No	Digits, spaces, + and - (international)
Message	Textarea	Yes	At least 5 characters
Privacy consent	Checkbox	Yes	Links to Privacy Policy (text TBC)

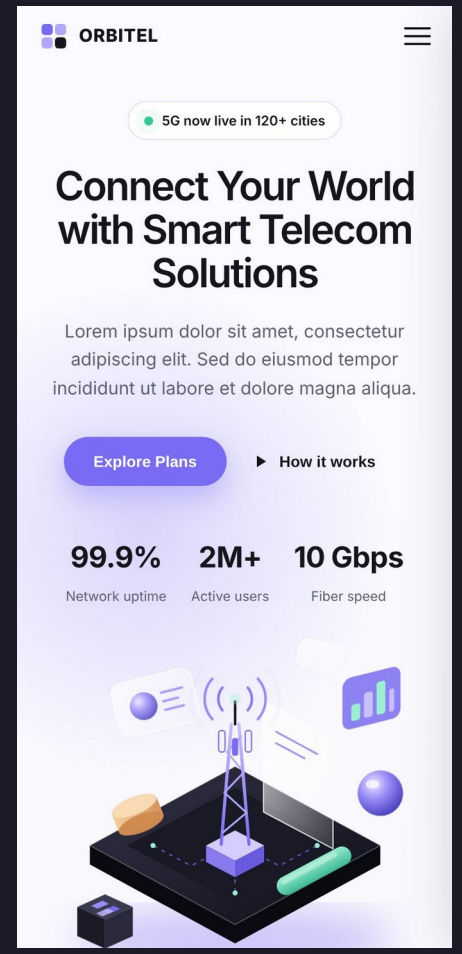

To confirm

- Form handler: hosting SMTP, a form service or CMS plugin
- Auto-reply wanted? If so, approve wording
- Which spam protection to use
- Store submissions anywhere besides email?

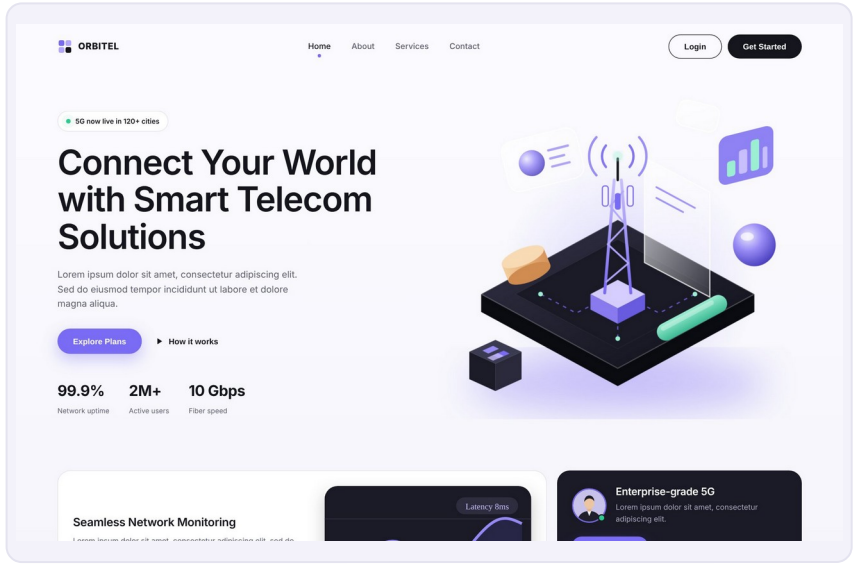

07

Delivery

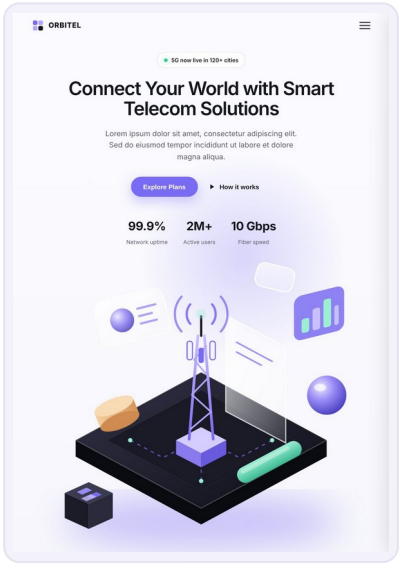

Responsive design: how the site adapts to every screen, SEO groundwork, the items we need from you, and next steps.

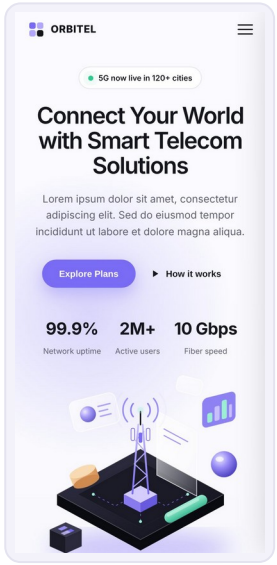

Breakpoints carried over from the sample

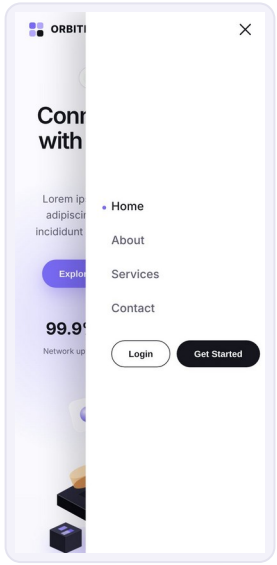

Desktop 1440px

Tablet 820px

Mobile 390px

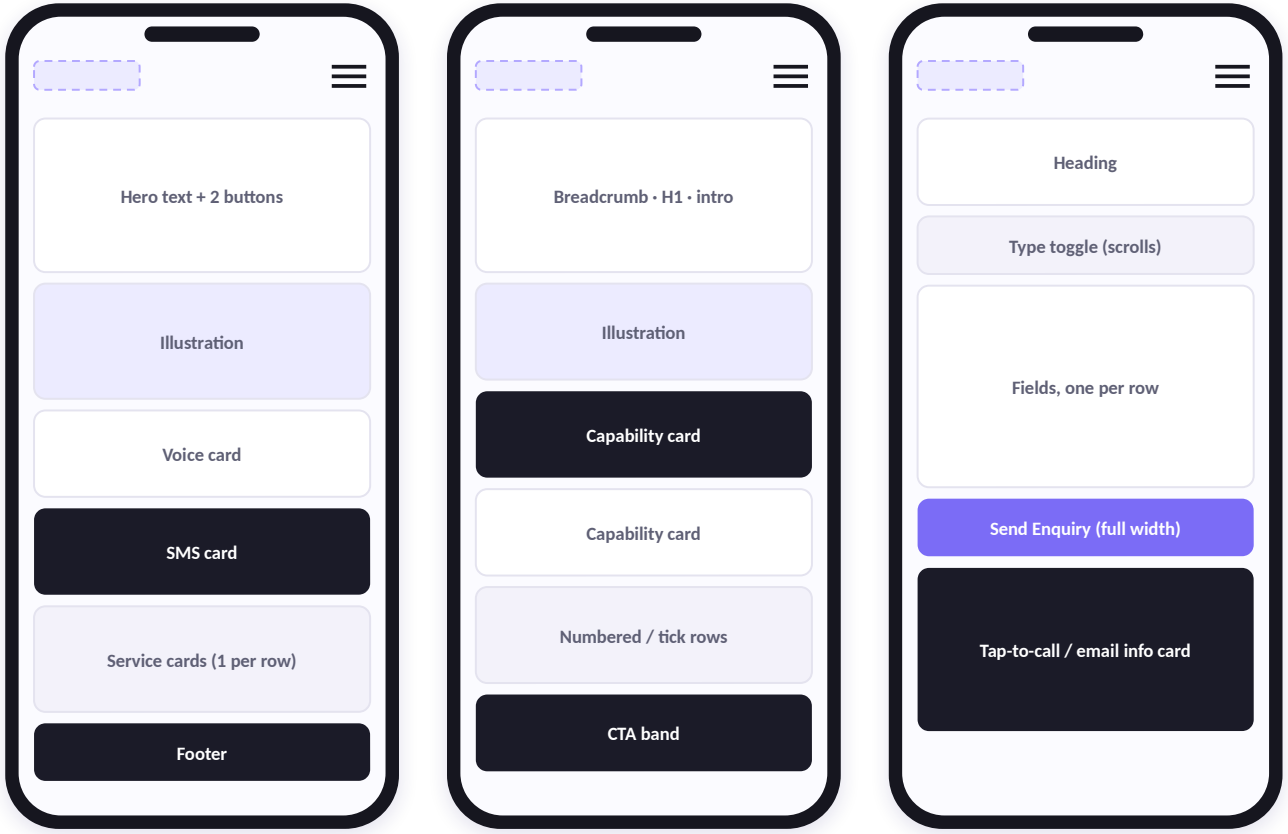

Mobile menu open

Screenshots of the sample site at each size (placeholder content shown).

Width	Device	What changes
≥ 1080px	Desktop	Full layouts: 4-column bento, side-by-side founder cards, 2-column hero
900–1080px	Small laptop	Bento drops to 2 columns; founder cards stack
600–900px	Tablet	Hamburger menu; hero, about and contact become single column; footer 2 columns
< 600px	Phone	Everything single column; form fields one per row; timeline vertical; footer 1 column

Mobile layouts and recommendations

Home **VoIP / SMS** **Contact Us**

Recommendations

- Mobile-first build; test at 360, 390, 768, 1024 and 1440px
- Touch targets ≥ 44px; primary CTA reachable without zooming
- Services dropdown becomes an expandable item in the mobile menu
- Contact details use tap-to-call and tap-to-email
- Illustrations as lightweight SVG; photos as WebP with lazy loading
- Heavy parallax/animation off on touch devices and for reduced-motion users
- Hero headline scales fluidly (clamp) so it never wraps awkwardly
- WCAG 2.1 AA contrast; visible focus states for keyboard users

SEO groundwork

Page	Proposed title tag ✱	Primary terms (from the document)
Home	Omaginfo LLC | Global Voice & Messaging Connectivity	international voice termination, VoIP, SMS connectivity
About Us	About Omaginfo LLC | Global Connectivity. Trusted Partnerships.	telecommunications company, telecom partnerships
Services	Our Services | VoIP, SMS Routing & Direct Routes | Omaginfo LLC	SMS routing, direct route solutions, global telecom partnerships
VoIP	VoIP & International Voice Termination | Omaginfo LLC	A–Z voice termination, international voice connectivity
SMS	SMS Connectivity & A2P Messaging | Omaginfo LLC	A2P SMS, international SMS aggregators, direct SMS connectivity
Contact Us	Contact Omaginfo LLC | Partner with Us	Omaginfo LLC contact

Only 'Global' was supplied for keywords/regions; the terms above come from the client's own service wording. Additional keywords or priority countries to be confirmed.

Technical basics

- Target region: Global (as supplied)
- Unique meta description per page
- One H1 per page; clean URLs (/services/voip)
- Organization schema with address, phone, LinkedIn
- XML sitemap, robots.txt, HTTPS
- Google Search Console + analytics (access TBC)
- Fast loading: SVG art, compressed images

Assets we need from you

#	Asset	Used on	Status
1	Logo — vector (SVG/AI/EPS), full-colour and white versions; favicon	Navbar, footer, browser tab	Required
2	Brand colours and fonts (if any exist)	Whole site (else sample palette is used)	Confirm
3	Professional headshots of Gaurav Goyal and Aastha Gupta	About Us – Leadership	Required
4	Founders' LinkedIn profile URLs and (optional) public emails	Founder cards	Required
5	Optional founder quotes and years of experience	Founder cards	Optional
6	Verified figures, if you want a stats row (e.g. destinations, partners)	Home hero, About	Optional
7	Founding year and milestones for a timeline	About Us – Our Story	Optional
8	Privacy Policy and Terms of Use text	Footer links, form consent	Required
9	Any certifications or partner logos — only with written permission	Home / About (if supplied)	Optional
10	Approval of illustration style (isometric SVG, sample-based)	Hero and page headers	Approve

FOR CLIENT APPROVAL

Information to confirm before design starts

Address ZIP code

Supplied as 'Sheridan, Wyoming, USA 8280'. US ZIP codes have five digits, so this looks incomplete — please confirm the exact code. Also confirm you want it shown publicly and on a map.

Business hours & time zone

Not supplied. Shown on Contact Us only if provided; otherwise the line is removed.

Domain & hosting

We assume omaginfo.com (from the email address). Confirm domain, hosting and who manages DNS.

Login / client portal

Sample had a 'Login' button. Remove unless you have a portal URL to link to.

Newsletter

Sample had a newsletter sign-up. Removed — not mentioned in the brief. Confirm if wanted.

Proposed microcopy (✱)

Button labels, form labels, eyebrows and short captions were written by us. Please approve or edit.

Page structure

Approve the 6-page sitemap, or tell us if Direct Routes / Partnerships need their own pages.

Other social channels

Only LinkedIn was supplied. Add any others you want linked.

NEXT STEPS

From proposal to launch

1

Approve

Sitemap, visual direction and proposed copy (✱)

2

Supply

Logo, photos, legal text and items marked TBC

3

Design

High-fidelity designs for all 6 pages, desktop + mobile

4

Build
