WEBSITE DESIGN PROPOSAL

Omaginfo LLC Corporate Website

OVERVIEW

Goal: A Credible B2B website for Omaginfo LLC

Omaginfo LLC provides voice and messaging connectivity to operators, carriers and business partners across international markets. The new site should present its VoIP, A–Z voice termination and SMS routing services clearly and turn visitors into partnership enquiries.

Inputs analysed

- Sample website: Sample Websites are referred by our team and client provided sample websites
- Client document: Website_Content.docx (12 content items)

Objectives

- Communicate the services clearly to telecom buyers
- Build trust: company, founders, mission
- Drive enquiries to info@omaginfo.com

Proposed scope

- 6 pages: Home, About Us, Services, VoIP, SMS, Contact Us
- Privacy Policy and Terms (content TBC)
- Responsive desktop, tablet and mobile

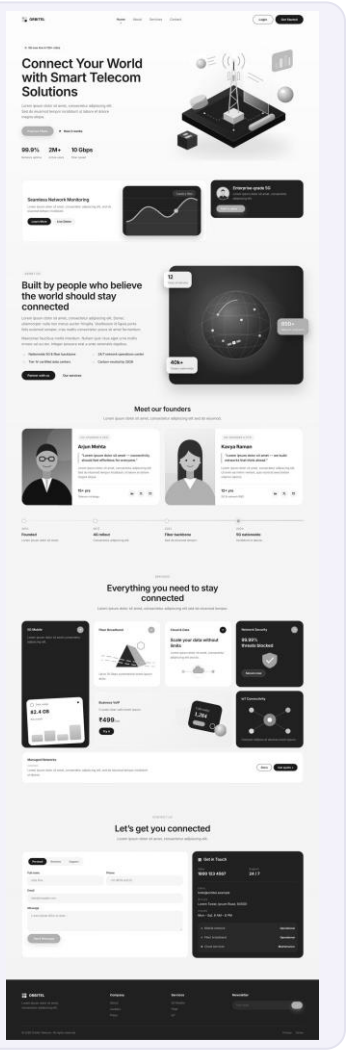

Audience (from document)

- Telecom operators and mobile network operators
- Carriers, service providers, SMS aggregators
- A2P / CPaaS platforms and businesses

- SMS routing
- Global connectivity solutions

Layout

- 2 columns: text left, dark globe card right
- Tick list in 2 columns; two buttons below
- Mobile: text first, visual below

Content

- Heading + paragraph: document item 1, first paragraph
- Ticks: the four services named in that paragraph
- Chips: values named in paragraph 2 (reliability, competitive commercial offerings, mutual trust)

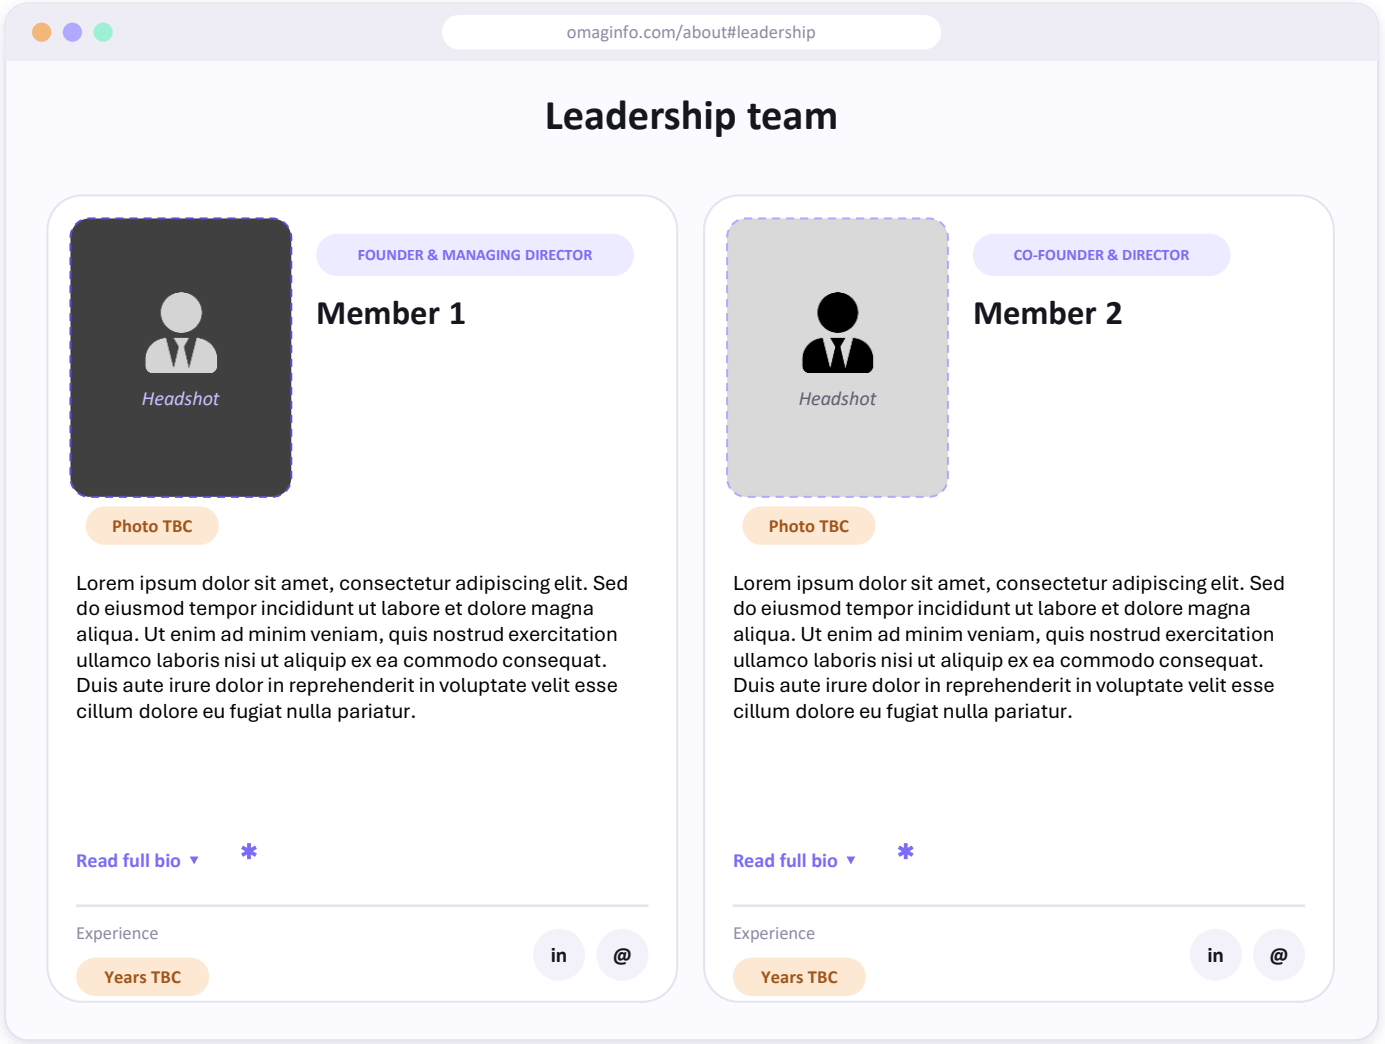

Visuals

- Sample globe & satellite SVG kept, arcs recoloured
- Floating chips carry words, not invented numbers

Functionality

- Learn More About Us ✱ → About Us; Our Services → Services
- Founders and timeline move to the About page

Leadership team

Layout

- Two founder cards side by side (sample format)
- Photo, role pill, name, bio, footer row with experience + social

Content

- Names, titles and full 3-paragraph bios verbatim (item 5)
- First paragraph visible; 'Read full bio' ✱ expands the rest
- Sample quotes removed — add only if founders supply one

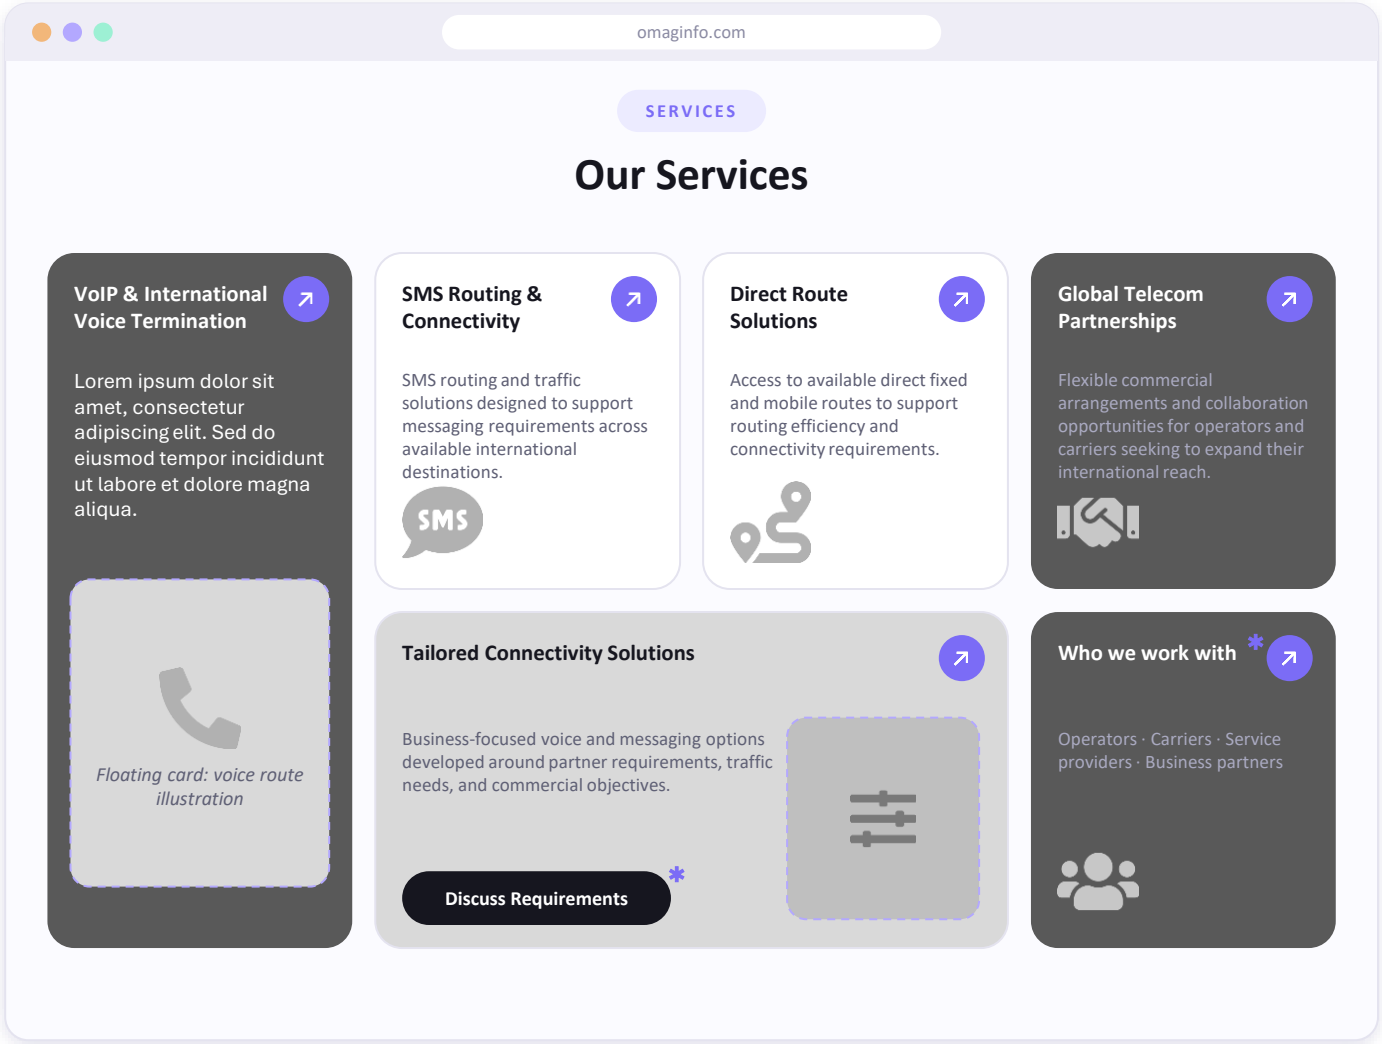

Visuals

- Professional headshots on purple gradient backgrounds (TBC)

Functionality
